- Implemented the latest features resulting in a in user engagement.
- Collaborated with cross-functional teams, including designers and product managers, to deliver high-quality software within project timelines.
- Demonstrated expertise in [mention any specific skills or technologies used, e.g., Core Data, networking, UI/UX design principles].
- Kept abreast of industry trends and applied best practices, resulting in improved code quality and application performance.
- Successfully integrated SwiftUI components into existing UIKit-based projects, demonstrating versatility and adaptability.
- Developed a mobile application that was compatible with both Android and iOS devices
- Developed and maintained iOS applications, actively participating in the complete app development life cycle from concept to deployment.
- Conducted code reviews and provided constructive feedback to peers, enhancing overall code quality and team collaboration.
- Successfully optimized application performance, leading to a 20% decrease in app launch times and improved user satisfaction.
- Implementing memory management techniques, including Automatic Reference Counting (ARC), to prevent memory leaks and optimize application performance.
- **Problem Solving:** Exceptional problem-solving abilities, capable of resolving complex technical challenges and optimizing code for performance and efficiency.

- **Collaborative Teamwork:** Adept at collaborating with cross-functional teams, including designers and back-end developers, to achieve project goals within deadlines.
- **Version Control:** Proficient in using Git and GitHub for version control, ensuring collaborative and organized development processes.

Projects Details:

1. Roast Perfect: The Roast Perfect App gives step-by-step instructions, from choosing the ideal beef cut at the store to how to prepare, roast and serve.
Description: The app helps you choose the right roast to buy based on portion size Prepare beef with videos and recipes Get perfect denseness with a built-in timer Find a nearby store to purchase the best beef roast

App link: <https://apps.apple.com/in/app/roast-perfect/id1027503321>

2. DOT APP Therabimb: DOT App is the first of its kind software build with a keen focus on connecting doctors with their regular patients by setting up a Digital Clinic.

Our vision is to create a platform where doctors can not only be part of their patient community but also be a proud part of a community of peers.

App Link: <https://apps.apple.com/in/app/dot-app-therabimb/id1537795568>

3. PREG App Therabimb: Preg App, is an innovative and unique convenience for all pregnant women in general and first-timers in particular. This is a vital link between pregnant women and their gynecologists, and as good and supportive as a digital midwife. Contrary to the earlier possibility of enjoying elderly care for almost 200 out of 280 pregnancy days, today pregnant women hardly get 40-60 days of elderly care in urban India, and it is getting worse year after year.

QA Analyst , Medibimb Technologies Pvt Ltd, Hyderabad

November 2019 – January 2022

- Tester for Digital Healthcare Division
- For Mobile apps and Web-based applications
- Work with the development team to create test plans for enhancements and fixes on the application.
- Responsible for specific testing phases (Performance / Automation)
