Consistent record of delivery on all targeted Sprint tasks

Project Details

● **Revature** (Propelforce 2017-2021)

Technologies : Lightning+Full Stack(Apex+Soql+Triggers+Integration+Admin)

The Project is about recruiting US candidates from colleges based on their performance in the assessments, providing them with Training and Housing and upon completion of training, assist them in Placements in various MNCs, and track their performances even after they are placed. All of this is done by a smooth implementation of Salesforce in the organization, along with integration with Third party apps.

Salesforce (Org62 2021-Present)

Technologies : Lightning+Full Stack(Apex+Soql+Triggers+Integration+Enterprise Architecture)

This project is all about developing new features in the salesforce environment which will be highly used by the B-to-B salesforce consumers. Highly scalable module that supports future enhancements.

2013-02 - 2017-04
