- Completed Intermediate from Sri Chaitanya Junior College (Board of intermediate) in 2014.
- Completed 10th class from St. Joseph's High School (Indian Certificate of Secondary Education (ICSE)) in 2012.

Project Experience:

Project: Blooprinted

Description:

If you've ever wanted to sell your formula for success, Blooprinted makes it easy with custom-made templates designed for your brand. Organize your outreach and streamline your system, no matter your market or personality. Blooprinted simplifies your strategy by templating your steps to brand or personal success, giving access for others to buy your formula (or make it their own).

Role: Front-End Developer

Environment: Linux OS (Ubuntu), Vue.Js, Quasar, Firebase, Stripe

Project: GreatPercent

Description:

GreatPercent enables homeowners to quickly and easily offer their property listings to interested local licensed real estate agents, who then bid for those listings by adjusting their commission rate through a closed bid format while also providing details on the services they will provide to sell your home.

Role: Front-End Developer

Environment: Linux OS (Ubuntu), Angular 6, PrimeNg, AWS

Project: DelivMeds

Description:

DelivMeds is an E-commerce type application to sale the medicines and track the status of the delivery.

Role: Front-End Developer

Environment: Linux OS (Ubuntu), Angular 5, PrimeNg, AWS

Project: BEMS

Description:

Building Energy Management System (BEMS) is an energy management application to measure the energy consumed and check the phase in a building.

Role: Front-End Developer

Environment: Linux OS (Ubuntu), Angular 8, Bootstrap, AWS

Project: StalkXchange

Description:

StalkXchange is similar to E-commerce application where products related to farming and lab results and tests will be done and certified.

Role: Full Stack Developer

Environment: Linux OS (Ubuntu), Nodejs, Heroku, Green Money

Project: EDO

Description:

Economic Development Authority – Opportunity Management System (EDO) whose mission is to promote economic development within a specific geographical area.

Role: Front-End Developer

Environment: Linux OS (Ubuntu), Angular 9, PrimeNg, AWS

Personal Strengths:

- Self-learner, self-motivated
- Ability to work independently and/or as a Team member
- Confident, Disciplined
- Good communication skills
- Excited to learn new technologies and explore legacy technologies
- Available for relocation

Achievements:

- Received **Best Debutant** award.
- Received **Best Employee** as a Developer.

Thank You,

Sai Dinesh Yadav Boddu.
