## ABOUT ME

Senior Full Stack Developer having 11 years of experience to developing e-commerce, CMS, Blogs, Microservices architecture based responsive, scalable, fast web applications using MERN stack technology and Adobe Commerce (Magento).

## CAREER PROFILE

**Publicis Groupe (Sapient Razorfish India), Gurugram**

Sr. Lead Full Stack Developer | Jun/2022 – Jan/2024

**CWC Pvt Ltd. (BrandAlley UK Ltd), Noida**

Sr. Full Stack Developer | Feb/202016 – Jun/2022

**CEDCOSS Technologies Pvt. Ltd, Lucknow**

Sr. Software Developer | Aug/202012 – Feb/2016

## WORK EXPERIENCE

### React JS Development

- Extensive experience of developing responsive websites using MERN React, Node, Mongo, Redux, HTML, JavaScript, CSS, jQuery.
- Developed code that deals with large data set rendering components on UI and optimizing calls to minimize HTTP request.
- Strong knowledge of building custom Hooks or use of pre react hooks to apply in functional and class based react component.
- Developed customer Onboarding solution-based module for highly scalable e-commerce business need.
- Create an admin module with high performance REST APIs to connect backend services for managing data and activity without downtime or blocking.
- Using Bootstrap, Material UI library for building responsive web pages.
- Unit testing knowledge perform with JEST library.
- Worked closely with an agile and dev team of 20 members and provided end-to-end solutions for clients
- Set up automated AWS CI/CD, Jenkins pipelines that reduced code integration time, resulting in faster software releases.

### Node Js Development

- Developed Microservices architecture-based OAuth Rest Api's, middleware for various secured, scalable, highly performance web application projects.
- Developed Api Gateway microservices, handling for server multiple instances, efficient routing and avoid Api request blocking, server down.
- Developed Live chat feature by using of node Js, WebSocket (socket.io) library for public and private group chatting.
- Developed server load balancing code for highly traffic and data transfer via REST Api to optimize web server performance and minimize crashing.
- Developed REST web services to make sales admin, merchant dashboard easy to manage and perform backend operation for 500,000 users daily.
- Set up automated AWS CI/CD, Jenkins pipelines that reduced code integration time, resulting in faster software releases.
- Unit testing knowledge perform with Chai and Mocha library.
