WORK EXPERIENCE

Company Name: **Unvired Software India Pvt Ltd**

Experience: **Since 1st Sep 2017 to Present**

Project Name: Digital Forms App (iOS , Android and Windows)

- **Technology used:** Ionic 5, Angular 8 and Apache Cordova.
 - **Description:** Digital Forms Application build for both android and iOS platforms. This app is used to digitize paper forms, automate workflows and integrate with backend so that remote workers can easily manage and collect data.
 - **Role:** End to End development of the mobile App and Release under **play store** and **App store**.
-

Project Name: Web Chat

- **Technology used:** Javascript, HTML5, CSS3
 - **Description:** This application is designed to conducts a conversation (or a chat) with a user in natural language through websites or mobile apps. It is useful to add chat support to their help desk software in order to provide real time answers. It helps to improve conversation rates.
 - **Role:** Designed two chat windows (embedded in page or slide up) which is involved in development of login credentials details screen and on submit calling Login API. On successful start chat by using start chat API using socket.io connection and end chat by calling the logout API (either user closes window or click on end).
-

Project Name: Chyme (AI-Powered Conversational Interface)

- **Technology used:** Javascript, Angular JS, Node JS, MongoDB
- **Description:** Chyme is a product from Unvired Inc., a Digital/Mobile Platforms and Solutions. This App is a Bots Platform that can be used to build AI-enabled chatbots that enable a conversational interface with systems -text. This App supports Intelligent digital assistants(bots) for Helpdesk, Customer Service, SAP and other tasks. Users interact naturally with any business system from Skype, Slack, Spark, Facebook Messenger, Google Assistant.
- **Role:** Build responsive chat application with multiple bot integration. Developed a pluggable framework (plugin using c9 architect in node.js and integrate into this App). Created RESTful web service APIs using async Waterfall approach in Express. Developed Conversation Builder Screen to model conversations very easily. Implement the feature of handover chat functionality between bot and customer where all the active agents can join the conversations.

ACADEMIC PROFILE

- B.Tech, **CSE** (2012-2016) from **Techno India-Batanagar**, Kolkata (8.58 CGPA).
- 12th (2012) from RSVM, Dhanbad (76.4%).
- 10th (2010) from Dhanbad Public School, Dhanbad (7.4 CGPA).
