### Career Objective:

Seeking a quality environment where my knowledge can be shared and enriched resulting in a professional growth of the Organization and Myself. Briefly to learn and grow in life. Ready to work for long hours with the mantra of patience, hard working attitude.

### Summary:

- ⊙ Around 3.0 year of experience in **Java J2EE** Web Technologies.
- ⊙ Hands on experience in **JDK1.8, Spring Framework, Angular8, MySQL, HTML5,CSS3 and Bootstrap4.**

### Technical Skills:

Programming Languages	:	Java (JDK1.8), Spring Framework 5.2.13.
Web Tools & Java Scripts	:	Java script, Angular Js, Angular 8, HTML5 & CSS3.
Database Environment	:	MySQL 6.3
Development Tools	:	STS-3.7.2 (Spring Tool Suite), Eclipse,
Web Server	:	Tomcat 8.5, WampServer
Operating Systems	:	Windows /7 /8/10
Web Technologies	:	Java Restful Services

### Educational Qualification:

- ⊙ **Bachelor of Science (B.Sc.,Computer Science)** – Kg College Of Arts and Science,Coimbatore. TN.

### Professional Experience:

- ⊙ **June, 2018** – Till date: Working as a **Software Developer** for **eGaisoft** (<https://www.egaisoft.com>) Bangalore.

### PROJECT SUMMARY

#### 1. Products: eMoy

**Role:** Software Developer

**Employer:** eGai Soft, Bangalore

**Duration:** August 2018 – Till date

#### Technologies Used:

- Java Restful services , Spring Framework., AngularJS, MySQL, ,HTML5,CSS3 and Bootstrap.
- STS, Apache Tomcat server 8.5 and Ant build.
- MySQL Server 5.7

eMoy is a product based web application, it is a monetary gift that one gives a friend or a relative when attending a ceremony at their house. While gifts may be the giver's choice, Moy is a question of pride and people remember who gives how much. Giving somebody an amount lesser than what they gave during a function is an act of disrespect and often end in harsh words in the middle of functions. To prevent this such altercations, eGai soft created software to handle Moy application in digital format.

This Moy App offers easy approach to handle the Moy functions and Moy Management for daily usage for long term. Moy app solution will save the customer's valuable time and its produce the

predictive analysis reports which help the customer to handle Moy efficiently. This software records the Moy given by people, which even print receipts as well as SMS. The receipt has details like place and date of ceremony, details of the guest and the amount given as gift. "This can be held as a proof to avoid mistakes and for future reference" also. It has a separate screen to find out each relative's Moy amount accurately in historical manner

**Accomplishment:**

- Involved in requirement analysis phase.
- Development of the application.
- Involved in writing Java Restful services.
- Unit testing.

**2. Products: ePra**

**Role:** Software Developer

**Employer:** eGai Soft, Bangalore

**Duration:** January 2019 – July 2020

**Technologies Used:**

- Java Restful services , Spring Framework., AngularJS, MySQL, ,HTML5,CSS3 and Bootstrap.
- STS, Apache Tomcat server 8.5 and Ant build.
- MySQL Server 5.7

The EPRA is a kind of tool used to prevent the rejections/problems in production process using 8D steps under quality perspective. The 8D problem solving process is a detailed, team oriented approach to solving critical problems in the production process. The goals of this method are to find the root cause of a problem, develop containment actions to protect customers and take corrective action to prevent similar problems in the future.

**Accomplishment:**

- Involved in requirement analysis phase.
- Development of the application.
- Involved in writing stored Procedure.
- Unit testing.
- Handled modification and deployment of source code.

**3. Products: eChit**

**Role:** Software Developer

**Employer:** eGai Soft, Bangalore

**Duration:** May 2019 – February 2020

**Technologies Used:**

- Java Restful services , Spring Framework., AngularJS, MySQL, ,HTML5,CSS3 and Bootstrap.
- STS, Apache Tomcat server 8.5 and Ant build.
- MySQL Server 5.7

A Chit fund is a kind of savings scheme practiced in India in that it also played a vital role in the financial development of people of south Indian. This tool is used as product to manage unorganized schemes conducted between friends or relatives. The basic necessity of conducting a 'chit fund' is a group of needy people called subscribers. The Agent— the company or person conducting the chit fund— brings these people together and conducts the chit fund. The Agent or company person is also responsible for collecting the money from subscribers, presiding over the auctions and keeping subscriber records. With the advent of ecommerce in India, we have consolidated and covered all this actions and transactions through online to manage this type of chit funds. It has three important modules.

**Accomplishment:**

- Involved in requirement analysis phase.
- Development of the application.
- Involved in writing stored Procedure.
- Unit testing.
- Handled modification and deployment of source code.

**Strength:**

- Self-disciplined,
- Self-confident and hard.
- Co-operative and adjustable nature.
- Strongly self motivated.
- I thrive on challenges and a committed profession.
- Willing to learn new things.

**Areas of Interest:**
