PROFILE

I have over 4+ years of industry experience as a Web Designer professional, and have been a part of many advanced concepts and latest technology in projects for companies during these years. I have a positive outlook towards life and working hard to achieve my dreams.

I started to build up my powers in 2015, from my first company CreArt Solutions, I began taking an interest in UI / UX Designs more than only Graphics. I dream of mastering these technologies and becoming one of the top-rated designers and start to learn every possible Technology with a period of time.
