PROFESSIONAL EXPERIENCE

- Working as Senior Salesforce developer at ACRO Computing India Pvt Ltd from August 2018 to till date.

Projects:

Project 1:

Paylocity (HR and Payroll Industry) – Salesforce Developer – Sales cloud – From 2022 August – till date

Description: All-in-one software platform gives HR pros a way to easily manage daily tasks in payroll, benefits, talent, and workforce management. But what makes us different is that our technology is backed by a culture that truly cares about our clients' success. Providers will merely sell you a product. But a partner care about you and your business. A partner takes the time to get to know you and understand your needs. We work with you to identify the best solutions that will benefit your business today, while paving the way to a better tomorrow. And tomorrow is all about your team. Everything we do is designed to support you in reaching your goals. Together, we tackle your day-to-day work so you can spend more time building the culture you and your employees crave.

Project 2:

Bestow (Insurance Industry) – Salesforce Developer – Sales cloud – July 2021 to Aug 2022

Description: Ensuring every family has access to the financial tools and safeguards they deserve is no small task. We have revolutionized the way people apply for life insurance, but truly expanding coverage means partnering across the industry. That is why we are developing solutions to help carriers drive innovation. Because life insurance is not just about today, it is about being ready for tomorrow.

Project 3:

RECOVER HEALTH – Salesforce Developer – Service cloud– from Mar 2020 to July 2021.

Description: Recover Health Project platform provide to schedule the Appointments to covid-19 test. This system contains different roles those are admin, Employer, lab, front desk, and patient. Based on Role login giving permissions. This project mainly used for booking the slots for covid-19 test. once the test is done update the status information to the end user either through Mail or SMS If user not attend the test giving the notification to user and say to them if you want to change the schedule. We are giving the information printout to the user If user have covid or not.

Project 4:

Brembo (Auto parts) – Salesforce Developer – Service cloud/Community Cloud – from June-2018 to Sep-2019.

Description: Brembo is the undisputed global leader in the production of brake discs, calipers, and complete braking systems. With its unrivalled expertise, Brembo produces everything from brake discs for the most popular cars in the European, American, and Japanese markets to braking systems for the world's most prestigious and exclusive models. The superlative levels of technology and reliability of Brembo products is founded on an integrated production process which encompasses every stage in the production process, from research and development and testing to casting and machining. On top of this is an ongoing commitment to research and development that sets Brembo apart as a leading name in its industry and allows the group to excel as both a manufacturer of reliable, durable components for the world's most popular and widely sold cars, and as a supplier of state-of-the-art braking systems designed and produced specifically for the most exclusive and desirable models in every class.
