- Trainer/associate developer was working in guidance with senior team members developing and maintaining web applications by using ASP.net, C#, SQL server etc. Technologies.

TECHNICAL SKILLSET:
- **Client-Side Framework/ Scripting Languages –** Angular, Angular JS, Typescript, JavaScript, CSS, jQuery, JSON, AJAX, PrimeNG
- **Web Technologies/ Programming Language** - .NET core, MVC.Core, MVC, C#, Entity Framework core, Entity Framework, LINQ, WEB API, RESTful Web services, ASP.NET, Classic ASP
- **Other Tools** - Git, TFS, RabbitMQ, Dev ops, Atlassian Source Tree, Tortoise SVN, VSTS, JIRA, Confluence, Source Tree, Bit bucket, Bamboo
- **Cloud Technologies** - Azure
- **Databases Technologies -** SQL, MySQL, PL/SQL, ORACLE
- **Top Skills -** Full Stack developer in Dot Net Core, Angular, Web API, C#, Asp.net, MVC, Entity Framework core, Entity Framework, LINQ, Azure, SQL server, Oracle, Dev ops, CICD, Jira, Confluence, Source tree, Bit bucket, Bamboo, TFS, Microservices

SOME PROJECTS:

Domains worked in:
- Banking, finance & Insurance
- Government of Maharashtra and public sector domain
- Medical, Pharmaceutical, fragrance and flavor industry, Passport and Metro service industry domain

Star Intelligence (Cotiviti) – 2023
- Working with Cotiviti client on developing and deploying dot net core, angular, web API based applications in containerized environment with Oracle, SQL server, CICD
- Actively involved in agile process, development, deployment, coordinating with QA
- Star intelligence is the application used by multiple clients of Cotiviti used to calculate ratings based on historical data for current & next year, predicting measure, contract ratings at contract & pbp level.

Novant - 2022
- Developing and deploying dot net core, angular, web API based applications along with using Sql server, Azure
- Architected and developed dashboard and alerting framework for platform using .NET core, angular
- Collaborating with DevOps for managing sprint release cycles and getting sprint deliverables deployed
- Working on system stability, performance and maintenance of the services for continuity of the business
- Managing and coordinating with onsite team and getting features delivered on time
- Left this organization due to relocation issue

MMRDA, LMRC and VD Metro - 2022
- Development of entire project, maintenance activities of some, creating & hosting API for client and consumed API of client based on requirement
- This project involved end to end process of ticket booking till completion of journey of Metros for Mumbai, Lucknow, Vaishnodevi and US Metro services. Due to Pandemic the process is now optimized for digitization like QR ticket
- Functionality and for better digitization of entire process ticket/trip Bookings and availing the metro service.

Identify Project (HID/ Delarue) - 2019
- This project involved end to end process of Enrollment, Verification, Personalization, QA, Inventory management and Printing of the Passport / ID cards for countries like Rwanda, Malta, Estonia, Libya, Trinidad & Tobago

Declaration:
I consider myself familiar with Computer Science aspects. I am also confident of my ability to work in a team.
I hereby declare that the information furnished above is true to the best of my knowledge.
