🌐 <https://github.com/basavarajavate>

I'm a UI/Front end developer from Laxmeshawar [Karnataka]. I've been building Websites, Web-apps over 6+ years and currently live in a place called Bengaluru. I design in the browser with HTML5, CSS3 and a touch of JavaScript. I love coding things from scratch, but I can work with front-end Libraries like React JS, Bootstrap too.

## Skills:

- **Web Development:** HTML5, CSS3, JavaScript (ES6), DOM Manipulation, JAMstack.
- **Design Methodologies:** BEM, Atomic Design Paradigm, Responsive Design, Mobile-First Design.
- **APIs:** RESTful, GraphQL.
- **Accessibility:** Web Accessibility WCAG Guidelines.
- **Performance:** Core Web Vitals, Web Performance Optimisation Techniques and Best Practices.
- **Tools:** Modern Front-End Build Pipelines and Tools, Git, Design Systems, Style Guides, Pattern Libraries.

## Responsibilities & Summary:

- Skilled with common front-end technologies such as HTML, CSS, JAVASCRIPT[ES6].
- Proficient in Multi-site management and localisation AEM Site & Design, develop, and maintain AEM components, templates, and workflows.
- Experience in front-end Libraries such as React JS.
- Experience building rich data-driven web applications by consuming RESTful services and APIs.
- Experience with responsive and mobile design, as well as cross-browser development and testing.

- Experience with JavaScript build tools, and modern JavaScript frameworks such as React Js.
- Front-end software design patterns (e.g., asynchronicity, data binding, modules, objects, promises).
- Can articulate the risks and benefits of depending on front-end libraries, frameworks, and toolsets.
- Able to dive into the source code of front end libraries to debug, patch, and extend them when necessary.
- Extensive experience in developing and managing AEM Components, Templates and Pages.
- Familiarity with AEM core components and customisation.

## Experience
