

Mohd Saifuddin

Software Developer

I am a web developer with an experience of 1.5 Years having an array of knowledge in a number of different front-end and back-end languages, responsive frameworks, databases, and best code practices. My objective is simply to be the best web developer that I can be and to contribute to the technology industry all that I know and can do. I am dedicated to perfecting my craft by learning from more seasoned developers, remaining humble, and continuously making strides to learn all that I can about development.
