Customer Name

WK – Global Business Services

Description

“Health LRP” is a salesforce sales cloud Implementation for selling healthcare research solutions and medical & nursing journal publishing solutions to healthcare practitioners, students, and research professionals through a well-defined sales process. These sales process runs through different phases like Lead generation from different sources, converting those leads to Opportunities and Quote generation and then finally processing the order end to end. This implementation also involves some complex integrations with different systems like Marketo (for gathering leads), Cyber source (for validating the credit card details while processing the order), Advantage (for packaging and shipping of the order). We have also implemented reporting on various stages of the sales process.
