2018   Best employee of the year - Whiz Solutions Pvt. Ltd

About Me

Looking for an opportunity to use my skills which would make rise the business for the organization and to make good bonding between my fellow teammates and the upper management and the clients. My key interests are working with teams of technologies, learning new tools, and working with clients from the overall globe. I enjoy grooming juniors, managing team and making strong trustworthy business relations with the clients for their projects by delivering the work to their satisfaction.
