Objective:

Around 5.5 years total IT experience as a software developer having experience in developing a wide range of tools for various business needs of a range of clients. I am currently seeking long-term positions as a Java and AWS developer which will allow me to further improve my technical skills in Java and AWS cloud platform and grow my career.

Professional Experience:

Accenture Solutions Pvt Ltd (Jan 2022 – Present)

- Java Web Application Developer: Java (Spring Boot) / Spring WebFlux
    - Tools: Java, Spring Boot, Spring WebFlux, AWS Elastic Kubernetes Service, MongoDB, AWS documentDB
    - Development of REST Web services using Spring boot
    - Reactive code design using Spring WebFlux
    - Deployment on AWS EKS cluster using CI/CD Pipeline
    - Involved in customization of the application as per client requirements adding additional features, enhancements.
    - Code Management, versioning and branching using Github
    - Dev testing of APIs using Postman

- Contact Center Development: Golang / AWS
    - Tools: Golang, AWS, Lambda, API Gateway, Amazon Lex, DynamoDB, CloudFormation.
    - Development of various features for IVR based Contact Center using AWS services.
    - Deployment of code using AWS Cloudformation template
    - Involved in full lifecycle of project from design to development and deployment of the code.
    - Testing and debugging the Contact Center features using Cloudwatch logs
    - Worked on Unit tests for Golang code.

Tata Consultancy Services (March 2018 – Dec 2021)

- Java Web Application Developer:
    - Assisted in development of Web APIs for adding and removing Products as per Client requirement for e-Commerce application
    - Tools: Java, Spring Boot, PostgreSQL
    - Built REST web services with J2EE

- o Worked on REST API Integration involving transfer of JSON response to and from external application

- Process Automation for PLM software using Python
  - o Tools: Python, VBA, Selenium
  - o Built Python scripts to automate repetitive tasks for a Decommissioning project
  - o Developed Python scripts to automate mouse and keyboard inputs for several tasks.
  - o Created VBA macro to automate Excel and Word file tasks.

Skills:
- Programming languages: Java, Golang, Python
- AWS Cloud : Lambda, DynamoDB, Cloudwatch, Cloudformation, Amazon Connect, Lex,   API Gateway
- Databases: MongoDB, MySQL, DynamoDB
- Frameworks: Spring Boot, Spring WebFlux, Hibernate
