

- 8+ years of experience as Software Developer in Saviynt IDM, Sailpoint IDM, software design, analysis, development, testing and implementation of client server application using Java Technologies.
- Worked on RFC and proposal for IDAM project.
- Excellent implementation knowledge in Developing Web Applications using HTML, JSP, JavaScript, Servlets, Beanshell and MYSQL.
- Experience in software development life cycle (SDLC) including User interaction, Business Analysis/Modeling, Design/Architecture, Development, Implementation, Integration, Documentation, Testing and Deployment.
- Experience in setting and replicating DEV, QA and Production environment, Providing production support, environment troubleshooting and lending training.
- Experience in developing the custom and extended jar for Saviynt.
- Ability to learn & develop using new technologies quickly and utilizing it in productive manner.
- Good interpersonal skills, confident and poised in interactions with individuals at all levels readily developing rapport with colleagues
- Implement creative approaches to problem solving through use of good analytical skills.

Academic Qualification

Qualification	Institution,Place	University/B oard	Year of passing	Percentage / C.G.P.A.
Integrated Dual Degree (B.Tech + M.Tech) in Technology & Computer Science	Andhra University College of Engineering, Visakhapatnam	A.U.	2012	7.38
Intermediate	Vikas Educational Institutions, Visakhapatnam	I.P.E.	2007	85.3
10 th Class	S.F.S., Visakhapatnam	S.S.C.	2005	78.6

Technical Skill Set

Skills	Details
Identity & Access Management	Saviynt, Sailpoint
Integrated Application	AD, SAP HR, DB, Web services (SOAP, REST), Azure AD
Languages	Java, Java Script, powershell, Beanshell, JSP
Database / RDBMS	MYSQL, Oracle
Application Servers	Apache Tomcat, WebSphere

Certifications & Trainings

- AZ-900: Microsoft Azure Fundamentals
- Completed AZ-500 Azure training on Cyber Security
- Completed L100 and L200 Saviynt Certifications

Professional Experience Summary

Project 1:-

- **Company** : Accenture, Bangalore
- **Client** : PETRONAS
- **Duration** : July 2019 to till Date

Technology : Saviynt IDM, MYSQL, Core Java, Microsoft Graph API, Azure AD, Rest, SOAP, SCIM

Project Abstract: `

- **Client:** PETRONAS
- **Description:** Setting up Saviynt solution for the client and manage Identity governance.
- **Roles and Responsibilities:** I am part of team and bearer of following responsibilities:
 - Establishing Saviynt solution and Infrastructure by working with Saviynt.
 - Understanding and gathering the Requirements from client to configure workflows for onboarding of users and JML events.
 - Integrated SAP HR system with SSM for trusted reconciliation.
 - Developed the extended SSM jar to meet the custom client requirement.
 - Integrated the Azure AD with SSM as a target Application.
 - Understanding the requirements from Business Line Users.
 - Configuring Workflows, onboarding of Applications, Developing rules and Policies.
 - Advice client on best practice in cybersecurity domain.
 - Integrated CyberArk application to manage safes using SCIM protocol.
 - Configuring Attestation Campaigns and Actionable Analytics based on client requirements.
 - Developed complex MYSQL functions to achieve client requirements.

Project 2:-

- **Company** : Accenture, Bangalore
- **Client** : PETRONAS
- **Duration** : December 2018 to June 2019

Technology : SailPoint IDM, SQL, J2EE.

Project Abstract: `

- **Client:** PETRONAS
- **Description:** Creating POC's for the client using Sailpoint IDM which till now is using Forefront Identity Manager.
- **Roles and Responsibilities:** I am part of team and bearer of following responsibilities:
 - Understanding and gathering the Requirements from client to configure workflows for onboarding of users and for other life cycle events.
 - Understanding the requirements from Business Line Users.
 - Configuring Workflows, onboarding of Applications, Developing rules and Policies

Project 3:-

- **Company** : Cognizant Technology Solutions, Hyderabad
- **Client** : Abbott Laboratories
- **Duration** : June 2017 to Dec 2018

Technology : SailPoint IDM, SQL, J2EE.

Project Abstract: `

- **Client:** Abbott Laboratories
- **Description:** Setting up Sailpoint Infrastructure for the client which till now is using Forefront Identity Manager and ESAM applications for Accounts Provisioning.
- **Roles and Responsibilities:** I am part of team and bearer of following responsibilities:
 - Setting up infrastructure by working with infrastructure teams
 - Understanding and gathering the Requirements from client to configure workflows for onboarding of users and for other life cycle events.
 - Understanding the requirements from Business Line Users.
 - Configuring Workflows, onboarding of Applications, Developing rules and Policies.

Project 4:-

- **Company** : Infosys Ltd., Bangalore
- **Client** : Citizens Bank
- **Duration** : November 2016 to May 2017

Technology : SailPoint IDM, SQL, J2EE.

Project Abstract: `

- **Client:** Citizens Bank
- **Description:** We are given with the responsibility of setting up Sailpoint Infrastructure for the bank which till now is using legacy systems for requesting/provisioning access to the Users.
- **Roles and Responsibilities:** I am part of team and bearer of following responsibilities:
 - Understanding and gathering the Requirements from the Business Line Users.
 - Configuring Workflows, onboarding of Applications, Developing rules and Policies
 - Enhancement fixes for the on-boarded Applications
 - Patch Up gradation

Project 5:-

- **Company** : Infosys Ltd., Bangalore
- **Client** : Royal Bank of Scotland
- **Duration** : March 2015 till October 2016

Technology : SailPoint IDM, SQL, J2EE.

Project Abstract: `

- **Project Title:** Rainbow 2 Separation
- **Client:** Royal Bank of Scotland
- **Description:** Program RAINBOW2 is to restructure branches and customers .In that the security platform plays an important part with respect to securing important components and applications of to be created under new brand. Main components of this platform are CWS (Core Web Security), 2FA (Two Factor Authentication), Strategic User Access Management (SUAM).
- **Roles and Responsibilities:** I am part of SUAM team responsible for User Management and their privileges in the Organization and bearer of following responsibilities:
 - Understanding the Business Requirement.
 - Onboarding of Applications and Developing rules, Policies.

Project 6:-

- **Company** : Infosys Ltd., Bangalore
- **Client** : Royal Bank of Scotland
- **Duration** : August 2013 to February 2015

Technology : J2EE, SQL, WAS Console

Project Abstract:

- **Project Title:** Rainbow 2 Separation
- **Client:** Royal Bank of Scotland
- **Description:** Program RAINBOW2 is to restructure branches and customers .In that the security platform plays an important part with respect to securing important components and applications of to be created under new brand. Main components of this platform are CWS (Core Web Security), 2FA (Two Factor Authentication), Strategic User Access Management (SUAM).
- **Roles and Responsibilities:** I am part of 2FA team responsible for providing enhanced security during logon using 2FA and bearer of following responsibilities:
 - Understanding the Business Requirement documents.
 - Designing, IA (Impact Analysis).
 - Coding, Unit Testing and WebSphere Configurations

Academic Papers

- "Practical Importance of Cryptography and Network Security attacks, Types of Attacks and Applications of Cryptography".
Occasions: AXIS-2010, a National level Technical Symposium, VNIT NAGPUR.

Awards & Achievements

- Represented Andhra University at State Level University Championship
- Winner in Corporate societies Badminton Championship in Singles and Doubles Category
- Appreciated by all for my technical skills, way of handling the problem statement and better understanding of complex transformations
- Active member of Knowledge Management team and DR management

Personal Details

- Date of Birth: 01 July, 1990
- Passport Availability: Yes
- Hobbies: Collecting coins, Cooking, Playing Badminton
- Strengths :
 - Hardworking
 - Can mingle with people easily
 - Confidence and Positive Attitude

Declaration:

I hereby declare the above-furnished information is true to the best of my knowledge.

Nitish Sairam Sornapudi
