Technical Skills:

Programming Languages	PHP, Java
Web technologies	AngularJS-2, 4, 6, 8, 10, HTML, JavaScript, CSS, Typescript, Node JS, React JS.
Database	MySQL, MongoDB, PostgreSQL
Build Tools	Maven.
IDE and Tools	Eclipse, sublime-text, Jira, Source Tree, Visual code
Operating System	Windows & Linux.

Projects:

Project	One Tick
Client	Stellantis
Role	Senior Software Developer
Environment	JavaScript, Typescript, Angular 8, 10, MongoDB, Visual Code. Sublime, Html, CSS
Domain/Industry	Automotive industry
Description	The One Tick is an application framework which is a dynamic dashboard where users can drag and drop the component and save the connected workflow. It can have real-time data once the user has access to it. In addition, it has other features (Creating, managing data of database, its full dashboard with user management). A plant management module is also included (It's basically Supply Chain management).
Roles & Responsibilities	<ul style="list-style-type: none">• Work closely with internal development, product management and design/Ux teams.• Worked in enhancement of existing application.• Maintenance using version control system and code reviews to ensure the quality of application.• Worked closely with the backend team to consume the API to do frontend operation.• Worked on designing and modifying existing functionality with the team.• Development, Code review & Merge Activities.

Project	Nexxus
Client	AT & T
Role	Senior Developer
Environment	Angular 2,4,6, Node.js, MongoDB, Express.js, Html, CSS
Domain/Industry	Telecom
Description	The Nexxus is an application framework which access data from several applications displayed based on client requirements. It's basically a mediator application that handles all workflows between applications.

Roles & Responsibilities	<ul style="list-style-type: none"> • Communicated with a client for the User requirement. • Actively participated in Agile Scrums. • Maintenance using version control system and code reviews to ensure the quality of the application. • Updating Jira stories and Participating in Retrospectives. • Involved in the design of the application, consuming the web services and database operations. • Work closely with internal development and design team. • Involved in configuration changes, application maintenance and safe backup. • Tracking the issues and fix the issues. • Taking care of the defect fixing and coding part.
-------------------------------------	---

Project	Connected Manufacturing
Client	IBM
Role	Senior Developer
Environment	Angular 2,4,6, html, css, JavaScript, typescript, d3.js, Visual code
Domain/Industry	Factory Automation
Description	The Connected Manufacturing is an application framework which access data from devices and products and display based on client requirements. It's an Internet of Thing (IOT) application.
Roles & Responsibilities	<ul style="list-style-type: none"> • Involved in bug fixing and testing. • Work closely with internal development, product management and design teams. • Involved in coding. • Designed Drag and Drop widget workflow using angular-gridster and angular 6 • Active participation along with the team members in resolving the issues/defects in all aspects of the project • code review • Involved in Installation and configuration of Web Sphere Application Server. • Identifying ways to improve design and development processes.

Project	Common Gateway Application
Client	First Solar (USA)
Role	Senior Developer
Environment	Angular 2, Node.js, MongoDB, Express.js ,JavaScript, Typescript, Visual

	code
Domain/Industry	American manufacturer of solar panels(Automation)
Description	The Common Gateway Platform (CGP) is an application hosting framework allowing hosted applications to access data from Rockwell Automation devices and products.
Roles & Responsibilities	<ul style="list-style-type: none"> • Involved in bug fixing and testing. • Work closely with internal development, product management and design teams. • Involved in the design of the application, consuming the web services and database insertion operation. • Worked in an agile/scrum team and attended all the meetings and provided input into work. • Worked with a design architect and other developers to design, develop, test and deploy the application.

Personal Details:

Birth Date	30 th November 1989
Gender	Male
Lang. Known	English, Hindi, Gujarati
Hobbies	Traveling, Listening to Music
Address	9, Shivampark soc, dakor, Gujarat
Current Address	Ulsoor, Bangalore, India

Personal Skills:

- Full dedication to work.
- Willing to learn.

Declaration:

I hereby declare that the above written particulars are true to the best of my knowledge and belief.

Place: Bangalore
