OBJECTIVE

Looking forward to earning the position of Software Engineer at a leading organization to showcase my skills in programming to generate high-end solutions to general software issues along with drawing better user experience.

SUMMARY

- IT professional having more than 4+ years of experience in software development in Python.
- Coordinating with the team to meet the Business requirements.
- Abilities in handling multiple priorities, and a genuine interest in personal and professional development.
- Worked with various technologies like **Python, Django and Django Rest frameworks and MySQL**.
- Worked on the development of a Python Web Application and RESTful APIs based on Django and Rest Framework.
- Experience in working with Python and Django ORM Libraries to Fetch data from database to build scalable API.
- Experienced in advanced Python features like Decorators, JSON, and OOPS concepts.
- Experienced in working with Django ORM.
- Good knowledge in MySQL database.
- Knowledge on MySQL-Connector-Python to connect with Database.
- Knowledge on AWS services like EC2 Instance, S3.
- For testing API's, I have used tools like postman.
- Strong communication, collaboration and interpersonal skills.
- Proficiency in grasping new technical concepts quickly and utilizing them in an effective manner.
- Worked on GIT and GITHUB.

TECHNICAL SKILLS

Operating System	Windows
Languages	Python
Databases	MySQL
Framework	Django, Django Rest Framework
Versioning Tool	GIT
Development Tool	PyCharm, VS Code, Jupyter

EDUCATION

- **Bachelor of Engineering** from Solapur University, Solapur.

WORK EXPERIENCE

Organization	Designation	Duration
Incif Technologies	Software Engineer	January 2021 - Present
K.A.Pvt.ltd	Software Engineer	February 2019 – December 2020

PROJECT DETAILS

Project Name:	Pharmaceutical
Client	Alpha Drugs
Role	Python Developer
Technical Skills	**Languages:** Python **Database**: MySQL **Framework**: Django and Django Rest Framework

Contribution:
- Created APIs to Query the database and update the tables.
- Actively involved in developing the methods for Create, Read, Update and Delete (CRUD) inactive records.
- Worked on the development of a Python Web Application and RESTful APIs based on Django and Django Rest Framework.
- Implemented Django Forms, templates, serializers, models, Views, signals, URL routing etc. in Django.
- Implemented Serializers, API View, ViewSet, Model ViewSet, permissions and routers in Django rest framework.
- Implemented Throttling and Pagination concepts in Django rest framework.
- Implemented Python APIs to Query the database and update the tables.
- Worked on Python and advanced Python features.
- Keeping track of the changes in the versioning using GIT.

Project Name:	Oil and Gas
Client	Caltex Oil
Role	Python Developer
Technical Skills	**Languages:** Python **Database**: MySQL **Framework**: Django, Django Rest Framework

Contribution
- Implemented application development using MVT.
- Interactive in providing change request, trouble reports and requirement collection with the client.
- Worked on Python and advanced Python features
- Experience in working with Django ORM.
- Implemented API View, ViewSet, permissions and routers in Django rest framework.
- Worked on the creation of REST APIs with Django Rest framework.

Project Name:	Logistics
Client	Trans Group Logistics
Role	Python Developer
Technical Skills	**Languages:** Python **Database**: MySQL **Framework**: Django Rest Framework

Contribution
- Worked on Python and advanced Python features
- Implemented application development using MVT architecture
- Working with Django ORM.
- Implemented Django Templates, Pagination in Django.
- Implemented API View, permissions and routers in Django rest framework.
- Worked on REST APIs with Django Rest framework.
