Yogeshwari Wable

Angular Developer
Mo +91 7448049320
Email: yogeshwariwable@gmail.com

Experience Summary

Overall, 6.7 years of Total Experience in the IT Industry

- **Angular Expertise:** Over 6+ years of mastery in Angular, consistently delivering cutting-edge web applications with exceptional user interfaces and user experiences.
- **Innovative Solutions:** Pioneered innovative solutions, optimizing load times and enhancing performance through precise code optimization techniques.
- **Cross-Functional Collaboration: Proven** ability to collaborate seamlessly with multidisciplinary teams, including UX/UI designers and back-end developers, to deliver cohesive, high-impact projects.
- **Scalable Architectures:** Architect and implement scalable, maintainable codebases, ensuring long-term application robustness and adaptability.
- **Mobile-First Design:** Proficient in crafting mobile-first designs, guaranteeing optimal user experiences across all devices and screen sizes.
- **Continuous Improvement:** Committed to continuous learning, staying at the forefront of emerging web technologies, and consistently boosting productivity and quality.
- **Former ASP.NET Experience:** Previous role as a .NET Developer provides a holistic understanding of full-stack development, enriching problem-solving capabilities.

Responsibilities

- Leverage deep Angular expertise to craft cutting-edge web applications with top-tier user experiences.
- Lead the design and implementation of scalable, high-performance frontend architectures for future-ready applications.
- Collaborate seamlessly with designers and backend teams, translating ideas into intuitive interfaces.
- Implement performance optimizations, reducing load times and enhancing user satisfaction.
- Enforce stringent code quality standards, conduct comprehensive code reviews, and deliver bug-free applications.
- Expertly manage version control with Git and streamline development through CI/CD pipelines.
- Identify and resolve complex technical challenges to meet project milestones effectively.
- Mentor junior developers and create concise technical documentation to facilitate knowledge transfer.
- Specialize in mobile-responsive design, ensuring a seamless experience on all devices.

Education

- Bachelor's degree in computer engineering (B.E. Computer Engineering.)
- Percentage – 72.8
- Savitribai Phule Pune University.

Technical Skills

Technologies	ANGULAR (5,7,8,9,10,12), ANGULAR MATERIAL, TYPESCRIPT, HTML5, CSS3, BOOTSTRAP, RESTAPI(ASP.NET)
Database	MICROSOFT SQL SERVER
Operating Systems	MICROSOFT WINDOWS
Programming	TYPESCRIPT, JAVA SCRIPT

Employment

- GM Consultancy: March 2017 to April 2019
- Skynet Experts Pvt. Ltd.: May 2019 to Feb 2021
- Harjai Computers: March 2021 to Nov 2023.

Project Experience

Project 1:

Project Title	Partner Portal
Role & Location	Software Developer, Pune
Domain	Insurance
Client	Bajaj Allianz
Technologies & Tools	Angular 7, Angular Material, SQL server, TypeScript, Rest API, HTML5, CSS3
Team Size	12
About:	Developed a streamlined web admin portal for multiple banks, centralizing loan processing. Achieved unified operations, user-friendly design, and robust data security, optimizing loan origination and monitoring. Enabled cross-bank collaboration and scalability for future growth.

Project 2:

Project Title	Pampers Baby World
Role & Location	Software Developer, Pune
Domain	E-commerce & Retail
Client	P&G
Technologies & Tools	Angular 8, Angular Material, SQL server, TypeScript, Rest API, HTML5, CSS3
Team Size	14
About:	Engineered a cutting-edge web admin portal for Pampers, empowering administrators with seamless user management, dynamic content control, and unparalleled insights, driving application excellence

Project 3:

Project Title	Ayurveda Doctor System
Role & Location	Software Developer, Pune
Domain	Healthcare
Client	Panchakarma Clinic, Satara
Technologies & Tools	Angular 8, Angular Material, Bootstrap, HTML5, CSS3
Team Size	7
About:	Developed an integrated Ayurveda Doctor System that revolutionizes patient care. This innovative platform facilitates seamless connections between doctors and patients, enabling doctors to schedule and conduct remote or in-person consultations while allowing patients to effortlessly book appointments through a user-friendly web portal. It enhances accessibility, convenience, and patient care in the realm of Ayurvedic medicine.

Project 4:

Project Title	RPL System
Role & Location	Software Developer, Pune
Domain	Education
Client	Yuva Parivartan
Technologies & Tools	Angular 7, Angular Material, Bootstrap, HTML5, CSS3
Team Size	4
About:	Created the RPL (Rural People Learning) Software, a powerful tool designed to gather essential information from rural residents and deliver tailored training programs. This innovative solution empowers rural communities by offering specialized training modules in areas such as machinery operation and beauty parlors, enabling them to enhance their skills and livelihoods

Project 5:

Project Title	Employee Attendance System
Role & Location	Software Developer, Pune
Domain	Human Resource
Client	Sky Net Experts Pvt Ltd
Technologies & Tools	Angular 7, Angular Material, Bootstrap, HTML5, CSS3
Team Size	9
About:	An advanced Employee Attendance System is a comprehensive software solution tailored to simplify and enhance attendance tracking and management within organizations. This robust system efficiently records and manages employee presence, absence, and working hours, ensuring precision in payroll calculations and fostering increased workforce productivity.

Project 5:

Project Title	Assessment ERP
Role & Location	Software Developer, Pune
Domain	Education & Technology
Client	Maharashtra State Council of Vocational Training
Technologies & Tools	Angular 6, Angular Material, Bootstrap, HTML5, CSS3
Team Size	11
About:	Developed a robust Assessment ERP System with four distinct modules: MSCVT, VTP, Agency, and Assessor. Employed Angular Material and Bootstrap to create user-friendly dashboards for each module, optimizing data display and responsiveness
