Experience

Total 14-year experience in IT Industries

I am a well-organized IT professional with over 14 years of experience in facilitating Scrum methodologies, Power platform Architecture, software development, and quality control. I am targeting challenging assignments with a reputed organization.

From a technical perspective, I have worked on various technologies such as Power App, model-driven app, Power Automate, Azure logic app, Power BI, Dataverse, SharePoint, SQL Server, and MSBI technology. I am a highly motivated and results-oriented individual with a proven track record of success in delivering complex projects on time and within budget. I am also a team player with excellent communication and interpersonal skills.

I am confident that I have the skills and experience necessary to be a valuable asset to your organization. I am eager to learn new technologies and contribute to the success of your team.

Profile summary

- A result-oriented, energetic professional offering excellent quality **Power platform architecture, Quality Assurance, Software Solutions, and Service Delivery.**
- Certified Power app **development, Analysis and Architecture.**

Cricket

Cricket is my favorite hobby and a famous sport too. It makes me feel healthy, fit and a stronger person. Maybe because I love to play cricket and I play it too seriously focusing on each and every ball. Like many other people in India I was also aspired to play for my country.
