w/o Shobhit Dwivedi, Address: House no. C-140 A, 1st Floor, Sushant II, Gurgaon -122001

Dear Sir/Ma'am,

My name is Preeti Dwivedi, I have 5+ years of experience in the field of Information Technology, out of it I have 1.5 years of experience as a Full Stack Java Developer. I have completed my Master of Computer Applications from Rajiv Gandhi Pradyogiki Vishwavidyalaya, Bhopal. To keep myself abreast of the latest technological updates in the field of Java development, I am perusing the Master program on Full Stack Java Development from Simplilearn, the course is in the advanced stages of its completion.

About the Simplilearn Course (Dec 2020) – Included 250 hours of applied learning that provided extensive hand-on training in Java Front End, Middleware and Back end java technology skills.

CAREER OBJECTIVE & HIGHLIGHTS:

Infuse acquired knowledge and analytical traits in a dynamic environment; aid to the wealth generating capabilities of the organization. To become Java expert in next 3 years and deep dive into the field of software development and Information Technology.

KEY SKILLS :

Key Skills	Hands-on Projects & tools covered
<ul style="list-style-type: none">❖ Agile Manifesto❖ OOPS with Java data structures❖ Back End stack using SQL/Servlet/relational database with hibernate/JDBC with RESTful Web services❖ UI skills with advanced HTML using Spring/Angular/ JUnit 5, SOAP/ Mongo DB❖ Front End Stack using HTML, JSP, and Java Script	<ul style="list-style-type: none">▪ LockedMe.com –Digitize products of company lockers▪ Flyaway – Airline booking portal▪ Sportyshoes.com – Ecommerce Website
	<p style="text-align: center;">Tools Covered Servlet/Hibernate/Git/REST/J unit /Maven/My SQL/H2 /</p>

I have around ~ 1.5 years of experience in Java development ecosystem as a software consultant. I have hands on experience in java Front End technologies using HTML, CSS, Bootstrap, Java Script. I am also exposed to Back End technologies using Hibernate, Servlet, Spring Boot, Maven, JDBC. Currently I am honing my skills around Angular, Selenium, Node.JS. In the past I was more into Vocational IT training role and considering a relatively recent shift to pure play Full Stack Java Developer role I am looking for a challenging and good learning experience. I am okay to join at an entry role in case, it gives me good exposure in the field of Java development.

Kindly review my detailed resume attached with a cover letter; hope you find my profile suitable for your project requirement.

Sincerely
Preeti Dwivedi

PROFESSIONAL EXPERIENCE:

Software Consultant – Satisfaction Web Solutions, (Remote support) (February 2020 onwards)

Satisfaction Web Solutions is a budding web design and development company based in Dewas (MP), due to the onset of the pandemic, I could only provide remote support. The work done was primarily around Web designing and development using Java technology. The recent project involved development of a food ordering platform.

Vocational Trainer for Information Technology (CBSE) – ICA Edu skills, deputed on National Skills Qualifications Framework (NSQF) project, Delhi (Nov, 2015 to June, 2018)

ICA is one among the prominent Vocational Training Institute in India. It has presence in more than 100 cities and actively partnering with government run projects to impart and fortify the vocational skill set of students.

during the formative years of schooling. Provided Vocational hands- on vocational IT Training to more than 200 under privileged girl students in the Delhi government ICT labs.

Smart Class Coordinator – Educomp Solutions, Bangalore (June, 13 to June 2015)

Educomp is the largest Education Company in India, it has educators across over 65,000 schools has 23 offices across major states of India, Singapore, and United States. My role as a smart coordinator included, providing technical support in smooth functioning of servers and ETEC (Educomp Technology Enabled Classrooms) and to impart functional trainings to the teachers on how to operate the digital boards and content management.

Transcription Projects

Associated with Microsoft, Amazon Mechanical Turk (MTurk) and Appen language transcription projects in the capacity of freelancer consultant. The project involves evaluating synthetic voices (i.e. computer-generated voices), time coding, tagging subtitling and formulating the dictionary
