2011	Rao & Naidu College of Engineering, Ongole	B. Tech (Computer Science & Engineering)	JNTU, Kakinada	74
2007	Sri Chaitanya Junior College, Ongole	12th	Intermediate	93
2005	Bala Badi Gurukulam, Pamidipadu	10th	S.S.C.	86

PROJECTS

Project # 1 Youkraft Solutions Private Limited

Project Name   : Youkraft.com e-Commerce Portal

Role   : Lead Developer

Team Size   : 5

Environment   : Python, Django, Java8, Spring Boot, GraphQL, Node.js, Prisma

Description   : Youkraft.com is an e-commerce platform which provides all range of home interior, construction materials

Roles & Responsibilities:

● Proposing the technical solutions based on customer requirements and implementing the solutions

● Worked with managers across various verticals to resolve the technical issues

● Mentored junior developers in learning the SQL, python skills

● Closely associated with the accounting team in the generation of several statutory data for filing like GST, TCS, TDS, etc…,

● Did third party integrations for logistics, credit risk, payment modules

Project # 2 MSTC Limited

Project Name   : e - Procurement for LNG Import

Client   : IOCL, New Delhi

Role   : Team Lead

Team Size   : 7

Environment   : Java 1.8, J2EE, Python, Django, jQuery, AJAX, Restful, IBM WebSphere, DB2

Project Description : This is to provide the online e-Procurement platform for importing the Liquefied Natural Gas (LNG) from various vendors across the globe on L1 (Lowest Bid) tender basis.

Roles and Responsibilities:

● Performed analysis, design, coding and unit testing

● Independently implemented mail service for 60+ events across the project

● Did vulnerability assessment for the application and fixed the vulnerabilities

● Provided production support and did the enhancements based on the client requirements

● Mentored team members and provided technical and domain guidance

Project # 3 Volante Technologies

Project Name   : TDB Message Transformation

Client   : TD Bank

Role   : Senior Developer

Team Size   : 4

Environment   : Java 1.8, Apache Maven, Volante Designer, Oracle, JIRA

Project Description: TDB Message Transformation application is a standalone service to transform the stream of Cobol Copy Book financial messages to EDI message format. In the transformation process we need to validate the source message and map to the destination message format for sending to Wells Fargo system for sanctions.

Roles and Responsibilities:

- Involved in client discussions for requirements gathering
- Performed analysis, design, coding and unit testing
- Mentored team members and provided technical and domain guidance
- Provided support for the smooth delivery of the project into Production

Project # 4 Tata Consultancy Services

Project Name   : Structured Financial Messaging System (SFMS v6.0)

Client   : IDRBT – RBI

Role   : Developer

Team Size   : 10

Environment   : Java 1.8, Spring Boot, Spring MVC, Hibernate, JPA, IBM Websphere MQ, Tomcat, Oracle

Project Description: The SFMS is to provide the basic platform for all the Indian banks to carry the financial (RTGS, NEFT) and non financial messages (LC, BG, etc...,) to RBI and vice-versa in a secure medium. The SFMS application is available at all the banks and RBI for facilitating the financial messages mobility and to validate & process the financial messages at every node before sending to the next node.

Roles and Responsibilities:

- Independently developed the RTGS message creation module in the ISO 20022 format
- Performed analysis, design, coding and unit testing
- Provided the production support and did necessary enhancements suggested by the client

PERSONAL DETAILS

Full Name   : Narra Kishore

Gender   : Male

Marital Status   : Married

Date of Birth   : 10th July 1990

Languages Known   : English, Telugu, Hindi

Present Address   : H.No. 2-63, Ravinuthala Post, Bapatla District, Andhra Pradesh - 523213
