EXPERIENCE

QUANTIPHI ANALYTICS May 2019 - Present | Bangalore
DATA ENGINEER

BI Tool Migration (Cognos to Power BI) for a major publishing client

- Migrated existing Cognos Reports to Power BI. Spearheaded Power BI report development during the process.
- Build Datasets (APAC, EMEA & Canada) and developed interactive reports for product sales across various verticals for given Country-Market, on Power BI.
- Single handedly delivered these datasets and reports well within deadlines and received appreciation from client and colleagues. Obtained Best Team Award as well.
- Prioritized the tasks along with learning DAX and incorporating novel features like Bookmarks, Buttons, Matrix etc.

Examined Dashboards & automated pipelines for a pharmaceutical client

- Processed data, identified & calculated KPIs, using Tableau thereby extending my BI domain knowledge.
- Used AWS Lambda functions and python to develop scripts for automating the data pipeline.
- Adapted to the new tools/team and blended in quickly and provided insights on the same.

Data Governance & Quality for a major insurance client

- Underwent KT in a quick span regarding client business and initial use cases.
- Expanded my skillset and ventured into Informatica Metadata Manager to build data lineages.
- Showcases talent on IMM for BO Universes. Built universes and create data dictionaries on SQL Server and performed Data Lineage on IMM. Finished 800+ column mappings in a sprint.
- Also created business names and definitions for various assets and multiple source systems on Collibra (Data Governance).
- Also undertook major tableau requests and developed KPIs.

Graduate Induction Team

- Planned & executed the training modules for Campus Hires 2020 (Excel & Tableau)
- Coordinated and organized Mock Projects and Mentored New Joiners'

EXTRA CURRICULARS

- Headed a Cultural Group (TAM FAM) 2017-2019
- Executive Member, Reflux NITK
- School Vice- Captain 2013-2015
