## Summary

Detail oriented, committed salesforce developer with years of experience and extensive knowledge of salesforce, specializing in SFDX. Knowledgeable of all the development cycle stages and have a good command of coding languages. PD1 certified salesforce developer

## Experience

### Lead Analyst

#### ASPIGROW SOLUTIONS LTD

Sep 2018 - Present (2 years 3 months +)

At Aspigrow I have

- Worked daily with clients to better understand project requirements
- Lead Team of developers to better implement coding practices, design patterns and optimization.
- Provide technical leadership to teammates through coaching and mentor-ship.
- Developed projects on Salesforce with Apex, Aura, LWC and more.
- Integrated Salesforce with box.com.
- Created a Salesforce project for App Exchange.
- Developed web applications using Vue, React and express.
- Worked in creation of architecture for 2 salesforce projects from data model design to implementation.
- Converted a Salesforce project to use SFDX with unlocked package and LWC.
- Got PD1 certified salesforce developer

Technology Used:

Salesforce : Apex, LWC, Aura, process-builder, VF Pages for PDF generation, validation rule, reports, dashboards and various other platform technologies.

Web : Express, JavaScript, ES6+, Typescript, React, Vue.

Others : AWS, GCP, docker, K8s, CI/CD with circleci.

### Application Developer

#### IIMinds

Dec 2015 - Sep 2018 (2 years 10 months)

At IIMindsI have

- Responsible for development & deployment of various websites and web apps.
- Full Stack Developer My role was to write and style the front-end components that meet the requirements of our mocks and fulfill our user stories.
- Write back-end code to integrate with the front-end, database design.
- Building full stack web applications both from defined requirements as well as proof of concepts.
- Monitor and process pull requests for production deployments.

Technologies used: React, JavaScript, Node, Express, HTML, CSS, Typescript, SASS.
