Project On Salesforce Admin

Project Name: Bank Management System

Language of Implementation: Salesforce Admin CRM

Description:

This is the basic Bank Application in which the user will create their Bank Account and will choose the bank Branch and then as an administrator I have created a workflow and there are some formula fees for the automatic calculation in the transactions. I have applied some different securities on different objects through profile and permission set. I have applied Approval for different records.

Personal Skills

Good written and oral communication

Good Interpersonal Abilities

Quick Learner

Team Work
