- Having good experience on Process and Object studios and the Stages involved in it.
- Having good knowledge on working with Work Queues.
- Working experience on Environment variables, Environment locking, session variables.
- Experience in automating Excel, Windows and Web Based Applications.
- Working experience on Application Modeller and different Spying modes involved in it.
- Good knowledge in scripting and RDLC cycle.
- Aspiring to take up more challenging and larger role.

Technical Expertise

RPA Tools   **:** Blue prism, UiPath AA, Jiffy
Database   **:** My SQL
Ticketing Tools   **:** Jira
Operating Systems.   **:** Windows
Certifications   **:** UiPath Advanced and Solution Architect certified professional
                          Blue Prism Developer certified Professional
                          Advanced cerified AA Professional

Career Contour

December 2020 – Present with Jiffy.ai

Project   **:** Resume Shortlisting
Duration   **:** December 2020 – Present
Role   **:** Senior RPA Consultant

Accountabilities

- Responsible for selling and delivery of Technology Transformation services to clients
- Articulating the vision and value proposition to senior level clients (process and automation transformation) specifically targeting clients with global business services and/or SSCs
- Building strong client relationships by delivering outstanding value through automation
- Representing our automation practice in public forums
- Addressing performance, development and deployment issues across the client(s)/portfolio(s)
- Supporting achievement of sales and revenue targets
- Identification and assessment of potential processes for RPA

Project : Medicaid State Https Eligibility Query
Duration : March 2019 – December 2020
Role : Lead

Accountabilities
- ❑ Gathering user requirements analysed and designed software solution based on the Requirements
- ❑ We used to analyse, understand and document the Business processes in detail where required working on UiPath.
- ❑ Worked on different Environments like Microsoft Excel, web based application
- ❑ Configured automation processes as per TDD and PDD.
