SKILLS

- DevOps Engineer/Manager
- Terraform
- Jenkins
- Ansible
- Mysql
- Mongodb
- Maven
- Continuous Integration
- Project Management
- Docker
- Kubernetes
- Grafana
- Prometheus
- Sonarqube
- Configuration Management
- Git
- Python
- Bash Scripting
- AWS
- Azure DevOps
- GCP Cloud

PROFILE SUMMARY

As a DevOps/Cloud Engineer with over 7+ years of experience specializing in designing, implementing, and maintaining robust DevOps solutions. My expertise lies in streamlining software development processes, enhancing system reliability, and optimizing deployment pipelines. I have successfully set up and managed AWS/GCP/Azure infrastructure like EC2 instances, S3 buckets, Lambda functions, and VPCs. I am proficient in using Terraform to define, provision, and manage infrastructure, ensuring consistency in deployments. I have built and maintained CICD pipelines with Jenkins, automating code builds, testing, and deployment. I am skilled in Git and GitHub, including branch management, merging, and code collaboration. I have experience in containerizing applications using Docker and orchestrating them with Kubernetes. I have also used Docker Hub for image repository and version control. I am proficient in Python scripting for automation, custom tooling, and monitoring tasks with gitops.

EDUCATION HISTORY

Graduation

Course	B.Tech/B.E.(Information Technology)
College	Lingayas Institute of Management and Technology, Faridabad
Year of Passing	2011
Grade	8.4/10

Class XII

Board	Tamil Nadu
Medium	English
Year of Passing	2007
Grade	65-69.9%

Class X

Board	Tamil Nadu
Medium	English

TECHNICAL SKILLS

- JIRA
- Big Data
- Azure DevOps
- Sonarqube
- Jenkins
- Google Cloud Services
- Ansible
- Docker
- AWS DevOps
- Terraform

LANGUAGES KNOWN

- English
- Tamil
- Hindi
- German
- French

COURSES & CERTIFICATIONS

- Microsoft Certified: Azure AI Engineer Associate
- Microsoft Certified: Azure Data Engineer Associate
- Microsoft Certified: Power BI Data Analyst Associate
- Google Cloud Certified Professional Cloud Architect
- Google Cloud Certified Professional Cloud Database
- Google Cloud Certified Professional Data Engineer
- Microsoft Certified: Azure Stack Hub Operator Associate

Year of Passing   2005
Grade   80-84.9%

WORK EXPERIENCE

Oct 2016 to Present

DevOps Engineer at I Weave Solutions Private Limited

As a DevOps Engineer at Ecomom, led a transformative project focused on enhancing the organization's infrastructure, deployment processes, and overall IT operations. Experienced in managing and maintaining Linux, Ubuntu, and Windows environments, ensuring system security, performance, and reliability. Proficient in Python scripting for automation, custom tooling, and monitoring tasks.

PROJECTS

E-Commerce, 591 Days

As a DevOps Engineer at Ecomom, I led a transformative project focused on enhancing the organization's infrastructure, deployment processes, and overall IT operations. Ecomom, a prominent brand specializing in environmentally safe and healthy products for mothers and their children, required a robust and efficient IT framework to support its mission of promoting sustainable parenting essentials.

Banking, 485 Days

Barclays, I played a pivotal role in a transformative project aimed at enhancing the efficiency and agility of the bank's software development and deployment processes. This project involved the integration of DevOps practices and tools to streamline software delivery, reduce operational overhead, and improve collaboration between development and operations teams.

Ticketing, 519 Days

Development and maintenance of an online ticket marketplace platform similar to TicketNetwork. The platform aimed to connect ticket sellers and buyers for a wide range of live entertainment events, including concerts, sports games, theater shows, and more.

Healthcare, 516 Days

Magellan Health Inc., I played a pivotal role in optimizing and enhancing the company's managed healthcare services for special populations and pharmacy benefits using cutting-edge technology. Our mission was to improve health outcomes while recognizing the value of personal relationships in achieving overall well-being. In this role, I contributed to various key projects and initiatives that brought efficiency, automation, and agility to our healthcare operations.

Travel & Tourism, 365 Days

As a DevOps Engineer, I played a critical role in enhancing the operational efficiency and reliability of Secret Escapes, a members-only British travel company. This project aimed to streamline the deployment process and ensure the seamless scaling of the company's travel platform to accommodate increased user demand.
