## **WORK EXPERIENCE**

### **1. Company Name:- CITIUSTECH HEALTHCARE Pvt. Ltd. (Duration- July 2021 to Present)**

Currently working as **Technical Lead-II (Automation Testing)** for **2.5+years** in Citiustech Healthcare Pvt. Ltd. is a Serviced company which provides the solutions to USA healthcare.

**Project: 3MI E360 QA Initiative. (Duration: July 2021 - Present)**  
**Clients: 3M Healthcare USA**

- **Summary:** The 3M 360 Encompass platform seamlessly integrates computer-assisted coding (CAC), clinical documentation improvement (CDI), concurrent quality metrics and analytics into a single application to capture, analyze and advance patient information across the continuum of care. It helps healthcare organizations to unite and automate their coding and documentation improvement system thereby helping them to streamline processes, receive accurate reimbursement, promote compliance and make data-informed decisions. These organizations apply the cost and time-saving benefits of proprietary natural language processing (NLP) technology to their coding process. The automated intelligence of 3M 360 Encompass integrates and streamlines clinical documentation and coding workflows, so coders and CDI specialists can work from the same content, reducing duplication. 3M 360 Encompass operationalizes the

patient care processes by highlighting the difference between physician documentation and actual care delivered, providing accurate, complete and compliant data.

- Main Technology Used: Python, Selenium Webdriver, Forge, FTM, TFS, GIT, POM Approach, 7Edit, HL7 Generator.
