✓ Hands on working on CRUD operations, Building Requests & Validating Response, Validating Schema, Body, Status Code, Response Variables.
✓ **Rest API** Automation using **Rest Assured**.

Educational Qualifications:

▪ MCA from Rajasthan Technical University, Kota(Rajasthan) in 2015.

Work Experience:

May 2020- Till Date	**: EZOPS Technologies India Pvt. Ltd.**
Nov 2018- May 2020	**: ESTEL Technologies Pvt. Ltd.**
Feb 2017- Nov 2018	**: RIEMEN Solution Pvt Ltd.**

Technical Skill

✓ Programming Languages : Core Java, C(basic).
✓ Manual Skill   : Requirement Analysis, Test Scenarios, Test Cases, Review Template, RTM, Test Execution Report, Bug Report
✓ Automation skill   : Selenium WebDriver, Apache POI, IDE: Eclipse, TestNG, Maven, Jenkins, Data driven Framework, Page Object Model, Hybrid Framework, Rest Assured,BDD,Junit,AWS.

Rahul Jain

➤ Operating System : Windows Server 2003, Windows 98/XP, Linux.

Projects Profile:

Project #1 **: ARO**

Project Name **:** ARO
Approach **:** Automation Testing using Selenium and Rest assured
Technology **:** Java/J2EE
Client **:** BNY
Team Size **:** 10

Description:

EZOPS is the market leader in reconciling complex assets like Total Equity, CFDs, Futures, Options, and Bank Loans. ARO is a product of EZOPS organization. It's a Reconciliation application whose broad objective is to do reconciliation between two or more data files and find out the breaks and reason of breaks using machine learning and AI.

Roles & Responsibilities

- ✓ Worked on Selenium WebDriver, TestNG and Apache POI
- ✓ Prepared Automation Strategies and implement testing using Selenium webdriver.
- ✓ .Created property file to manage all Element locater, Prepared POM and develop data driven framework.
- ✓ Worked on **Apache Kafka** Producer and Consumer Automation.
- ✓ Involved in setting up Automation framework.
- ✓ Involved in converting Manual Test cases to **Automation Scripts**.
- ✓ Involved in Execution of Scripts in **Automation Framework.**
- ✓ Participated in **Daily Status Meeting.**
- ✓ Participated **in Weekly Automation Meeting.**
- ✓ Responsible for Preparing **Daily Status Reports**.
- ✓ Converted Json to json transformation using **JOLT.**
- ✓ Involved in converting Rest API Manual Test cases to **Automation Scripts using Rest Assured**.

Project #2 **: Dtac eRefill**

Project Name **:** Dtac eRefill
Approach **:** Automation Testing using Selenium and Rest assured
Technology **:** Java/J2EE
Client **:** Uninor
Team Size **:** 4

Description:

This application is basically a recharge platform and a proven prepaid account management solution that helps telecom operators diversify their prepaid portfolio, shrink go-to-market time and achieve growing business targets.

Roles & Responsibilities:

- ✓ Involved in identifying and prioritizing the Test Cases to be automated.
- ✓ Consolidating and Analysing the Test Report before submission to Client
- ✓ Worked on Selenium WebDriver, Test NG and Apache POI
- ✓ Prepared Automation Strategies and implement testing using Selenium webdriver.
- ✓ Created property file to manage all Element locater, Prepared POM and develop data driven framework.
- ✓ Understanding the User Story with help of **Sprint Planning Meeting.**
- ✓ Involved in setting up Automation framework.

Rahul Jain

- ✓ Involved in converting Manual Test cases to **Automation Scripts**.
- ✓ Involved in Execution of Scripts in **Automation Framework.**
- ✓ Participated in **Daily Status Meeting.**
- ✓ Participated **in Weekly Automation Meeting.**
- ✓ Responsible for Preparing **Daily Status Reports**.
- ✓ Involved in converting Manual Test cases to **Automation Scripts**.
- ✓ Involved in converting Rest API Manual Test cases to **Automation Scripts using Rest Assured**.

Project #3   **:FASTUP**

Project Name   : Fastup
Approach   : Automation Testing using Selenium
Technology   : Java/J2EE ,Apache, MySQL,
Client   : Amarin Corp, USA.
Team Size   : 4

Description:

This is a web application that is related to the management of an organization's most valued assets - the people working there who individually and collectively contribute to the achievement of the objectives of the business. It is the organizational function that deals with issues related to people such as compensation, hiring, performance management, organization development, safety, wellness, benefits, employee motivation, communication, administration, and training. This application is based on the efficient utilization of employees in achieving two main goals within a corporation or other type of organization. The first goal is to effectively make use of the talents and abilities of employees to achieve the operational objectives that are the ultimate aim of the organization. Along with realizing the goals of the organization, it also seeks to ensure that the individual employee is satisfied with both the working environment and the compensation and benefits that he or she receives.

It is a system that converts human resources information into a digital format, allowing that information to be added to the knowledge management systems of the enterprise. The result of this is that HR data can be integrated into the larger Enterprise Resource Planning systems of the enterprise. In analyzing enterprise wide resource usage this data can prove invaluable. Data related to the time usage of the workforce can enhance the decision making abilities of management, allowing the HR department to form an integral aspect of strategy formation for the enterprise as a whole.

Roles & Responsibilities:

- ✓ Involved in identifying and prioritizing the Test Cases to be automated.
- ✓ Consolidating and Analysing the Test Report before submission to Client
- ✓ Worked on Selenium WebDriver, Test NG and Apache POI.
- ✓ Understanding the Functional Specification Document.
- ✓ Experience in **System** Testing, **Functionality** Testing and **Regression** Testing.
- ✓ Experience in writing and Executing **Test Cases**.
- ✓ Coordinating with the **Development** team for **bug fixing**.
- ✓ Hands of experience on **JIRA** Defect Tracking tool.
- ✓ Tested the Application by carrying out **Smoke** Testing and **Ad-hoc** testing.
- ✓ Good knowledge in testing in Web Application.
