PROFESSIONAL EXPERIENCE SUMMARY

Appirio-A WIPRO Company – from August 2019 to Present.

1. Project: Telstra (Spectre)

Project Abstract - This is a project for Australian based company i.e. Telstra Corporation Limited. It is service cloud based project which deals with cases generated by customers, agents, retail stores and partner stores.

Role : Consultant (Salesforce Developer)

Responsibilities :

- As a Developer, I was responsible for requirement analysis, interaction with client to validate the understanding and actively involved for the development.
- Worked on REST Api which deals with the external system.
- Worked on Continuous Integration within the project.
- Operated under Agile and Scrum frameworks to complete releases every 2 weeks and well-organized sprints.

Client: Telstra

Duration: 1+ Year

ATCS (Advanced Technology Consulting Service) – from September 2016 to 2019.

1. Project: DDM (Dealer Data Management)

Project Abstract: DDM defines and maintains the Application specific attributes outside the Dealer Runtime Directory. To store the application specific attributes, a database is made available for storage. A REST web-interface is used to read the maintained attribute-values by the After-Sales Applications. This application was used to deliver data to other applications in Mercedes Benz and Daimler.

Role: Java Developer

Responsibilities:

- As a developer, responsible for development of dealer search functionality using ldap and provisioning service.
- Direct conversation with clients and Full development of all the API to generate Attribute values.
- Deployments on INT and PROD environments using Docker and Minikube tool.

Server: TomCat Server

Client: Daimler

Duration: 13 Months

2. Project: FTS (Fleet Transparent System)

Project Abstract: This project is all about managing the FINs (Fleet Identification Number) for dealers and users for different divisions. Fleet is same as chassis number which acquires the information of vehicle and its belonging information. It contains the bulk upload of data for dealers having unique FINs and generating FTS ids after proper verification and validations.

Role: Java Developer.

Responsibilities:

- Responsible for Development of import and export CSV files with all the validations & verifications.
- Managing team of 3 members for java side development.

Technologies: JSF.

Server: IBM- WAS

Client: Mercedes Benz

Duration: 7 Months

3. Project: GC (Global Collaboration)

Project Abstract: This project is a Project Management Tool using for bug tracking, story tracking , time tracking and generating notifications. It consists of dashboard which defines the task / work flow with its process-state and estimated time for completion. Also include email validation and notifications.

Role: java Developer

Responsibilities:

- Direct conversation with clients and responsible for Development of major flows of the application.
- Leading a team of 3 member.

Technologies: Spring Boot , Angular 5

Server: TomCat Server

Duration: 4 Months

Key Learnings:- Angular 5

4. Project: NuZuco

Project Abstract: This project deals with the articles and parts of the vehicles and stores the information for aftersales for dealers, retailers and customers. It is a Desktop Application runs on Swings in Windows 7 only.

Role: java Developer

Responsibilities:

- Responsible for Development of article tabs and pricing calculations.
- Managing whole project individually and gather client requirements.

Technologies: Swings.

Server: WebSphere Application Server 7.0

Duration: 3 Months

5. Project: ACT (Aftersales Configuration Tool)

Project Abstract: ACT is a web-based project which provide API to fetch all the attribute values defined by multiple users for generic value-storing purposes. It consists of GET and PUT Api for fetching and Saving attribute values for different applications.

Role: JavaDeveloper

Responsibilities:

- Responsible for Developing GET api.

Technologies: JSF

Server: WebSphere Application Server 7.0.

Client: Mercedes Benz

Duration: 4 Months

ACHIEVEMENTS

- Awarded as **Star** of the sprint 4 times in a duration of 1 year.
- **Second** position in Coding Challenge in **TopCoder**.
- Participated in **Information Security & Ethical Hacking Workshop** conducted by Virscent Tech . Pvt Ltd .(IIT Kharagpur).
- Awarded with **Rajya Puraskar** by the Governor of Rajasthan as a Scout.
