OBJECTIVE

Seeking an environment, which will help me to enhance my knowledge and allow me to prove my capabilities towards the growth of organization and satisfaction thereof.

TECHNICAL

SKILLS

LINUX:

- Installation and Configuration of Linux Servers.
- Adding, creating, modifying Users and Groups.
- Knowledge on Shell and Get help on the commands.
- Good knowledge in file system, NTP, RSYSLOG and Sudo.
- Installing packages – RPM & YUM.
- Basic knowledge in Networking and setting static IP address.
- Knowledge in launching webpages Httpd.
- Setting up NFS server for network shares.
- Clear understanding on process, at and crontab.
- Knowledge on SSH.
- Having knowledge on Boot Process.

CLOUD - AWS:

- Launching a EC2 instances with security best practices.
- Creation of new VPC, Public/Private subnet, routes using route tables and internet gateway.
- Creation of snapshot and creation of AMI using snapshots.
- Deployment of high availability infrastructure solution using Auto Scaling Group and Load Balancer.
- Good practical knowledge in creation of EBS volume, attaching EBS volumes.
- Creation of EFS and mounting.
- Establishment of peering connections for VPC.
- Creation and configuration of S3 Bucket.
- Configuring Cross regional replication and same regional replication and Managing life cycle policies for S3 Buckets.
- Good working knowledge on IAM services like creation of IAM users, group, enabling MFA and creation of customized policies.
- Creation and configuration of RDS service.
- Good working knowledge of Route53.

DEVOPS:

- Experience with GIT/GITHUB version control system.
- Proficiency in JENKINS for CI, CD and end-to-end automation for application build and deployments.
- In JENKINS, to Setup EMAIL Notifications to Developers.

- Deploying object from JENKINS to TOMCAT. Worked on Application Servers like TOMCAT to deploy the code.
- Experience with DOCKER tool, running the containers, pulling images from the Docker Hub, creating Docker files to manage containers which are customized, docker commits to capturing the file changes into new Image and pushing the image into docker hub.
- In JENKINS, to Setup EMAIL Notifications to Developers.
- Good hands-on training with LINUX commands and volume mounting

INTERNSHIP

- The course completion on Cloud Computing (LINUX, AWS, DEVOPS).

ACADEMIC BACKGROUND

- Graduate B.com (CA) at (2019 to 2022) with 79% in Vikas Degree College, Kuppam.
- Intermediate with 78% at (2017 to 2019) in Vikas Junior College, Kuppam.
- SSC with 65% at 2015 in Z.P.High.School, Krishnadasanapalli.

LANGUAGES

- English
- Telugu

DECLARATION:

I do hereby declare that the particulars of information and facts stated above are true, and complete to the best of my knowledge and belief.

Date:

Place: Bangalore

Yours truly,
