

# RESUME

## Tableau Developer

SUDHAKARAREDDY A

Phone: +91-9849807895

Email: [sudhaappareddy@gmail.com](mailto:sudhaappareddy@gmail.com)

### Objective

Tableau Certified Developer with over 8 years of experience in Business Analysis, Business Intelligence applications, Data Warehousing applications, Data Visualization, Data Analysis, Testing in Banking, Healthcare and Supply Chain and Manufacturing domain.

### Professional Experience

- **Mar 2018 to Till Date** – Edvenswa Tech Pvt Ltd. – Sr. Programmer Analyst
- **May 2017 to Mar 2018** – Infosys Ltd. – Technology Analyst
- **Oct 2016 to May-2017** – Tech Mahindra Ltd. - Senior Software Engineer
- **Feb 2012 to Oct 2016** – Tata Consultancy Services -Systems Engineer

### Summary

- Having Over 8 years of IT experience in development, migration of Data Analytics and BI applications
- Have experience in Cognos Analytics.
- Extensive experience in the Banking, Supply chain analytics, good knowledge in the Inbound, outbound, Taskmaster and Profitability Analytics dashboard
- Very good understanding of new features in Tableau 2020.2 and other Tableau tools like Tableau Server, Tableau Reader, and Tableau Public.
- Responsible for Tableau Server Administrative functions, upgrades, installations, configuration, license management, backup of servers and load balancing techniques.
- Perform maintenance activities like Logs Cleanup and Archiving Log files in prescribed intervals, used for Business continuity during a Disaster.
- Expertise in Tableau Resource Monitoring and Content Migration tools.
- Good Experience in using **Scrum Model** in Agile Methodology
- Good Knowledge in **User Group, Row level and Column level security.**
- Hands-on with creating solution Driven Dashboards by developing different chart types including Heat Maps, Geo Maps, Symbol Maps, Donut Charts, Box Plots, Bar Charts, Tree Maps, Gantts, Circle Views, Line Charts, Bullet Graphs, and Histograms.
- Experience in **Level of Details expressions.**
- Experience in **Performance testing using Tabjolt for Reports.**
- Experience in creating and scheduling tableau data extracts for auto refresh.
- Experience working various data sources Amazon RS, SQL Server, SSAS, Azure, Snowflake and MS Excel and .shp files.
- Worked extensively with Advance analytics like Reference/Trend Lines and Bands.
- Expertise in working with **data blending**, Hierarchies, Groups and sets.

## Technical Expertise

- **Analytics Tools** : Tableau Desktop 2020.2, Tableau Server 2020.2, Cognos Analytics 11, Power BI
- **Databases** : Azure, Snowflake, Amazon Redshift, SQL Server, SSAS, Oracle 10g/11g
- **Back-end Tools** : SQL, Tableau Resource Monitoring and Content Migration Tools, Tabjolt

## Project Experience

### Tableau Developer/Admin

**USCOLD Inc. - USCS Analytics and Modernization - Tableau Desktop 2020.x/Server 2020.2, Azure, Snowflake, IBM DB2, MS SQL.**

- Involve and coordinate with the End Users, Project Manager and SMEs throughout the SDLC to gather the business requirements for a better understanding of the Business Processes using Agile Methodology.
- Coordinate with Informatica & EDW team to translating and simplifying the requirements.
- Responsible to work end to end development cycle on both Desktop and Server.
- Writing the SQL View and custom SQLs to meet the Business requirements.
- Creating the sites and Server configurations, Sever Upgrade.
- Creating the user groups and setup the permissions at Project and Workbook level.
- Publishing the dashboards to Tableau server/Online.
- Performance testing using Tabjolt and sharing the results and coordinating for UAT testing with Users.
- Responsible for Tableau Server Administrative functions, upgrades, installations, configuration, license management, backup of servers and load balancing.
- Perform maintenance activities like Logs Cleanup and Archiving Log files in prescribed intervals, used for Business continuity during a Disaster.

### Tableau Developer

**IEEE Organization - IEEE OU Analytics – Tableau Desktop 10.x, Talend, Redshift, Tabjolt**

- Migrated and re-designed the reports from OBIEEE to Self Service BI using Tableau Desktop and Server.
- Coordinate with Talend & EDW team to translating and simplifying the requirements.
- Used latest features like Cross Data Source filters, x Data base joins and
- Writing the Redshift View and custom SQLs to meet the Business requirements.
- Data Blending using the Geo Spatial files with redshift Data and develop the tableau dashboards using tableau functionalities.
- Creating the user groups and setup the permissions at Project and Workbook level.
- Publishing the dashboards to Tableau server/Online.
- Performance testing using Tabjolt and sharing the results and coordinating for UAT testing with Users.

### Tableau Developer

**GlaxoSmithKline plc: GSK CH Analytics - Tableau Desktop 10.x, Mapbox Services, Oracle and XLS**

- Extracted the tables/data from Oracle database and generated reports by using Tableau desktop.
- Developed different types of visualizations reports Geo Analytics Using Map Box Services and bar charts – Bubble graphs Box and Geo Graphical Analytics by using Maps.

- Developed customized statistical charts like Donut chart and complex reports using data blending
- Creating basic calculations including LODs, string manipulation, basic arithmetic calculations, custom aggregations and ratios.
- Developed Monthly Dashboards and KPI is based on the Warehouse stock levels.
- Created Hierarchies, Parameters and groups in tableau.
- Developed Custom Geo charts using .shp files.

## **Tableau Developer**

### **Lloyd's Banking Group: Consumer Finance & Corporate Cards Tableau Desktop 9.3, Oracle 10g, SSAS**

- Extracted the tables/data from Oracle database and generated reports by using Tableau desktop.
- Developed different types of visualizations reports Geo Analytics Using Map Box Services and bar charts – Bubble graphs Box and Geo Graphical Analytics by using Maps.
- Developed customized statistical charts like Donut chart and complex reports using data blending
- Creating basic calculations including LODs, string manipulation, basic arithmetic calculations, custom aggregations and ratios.
- Developed Monthly Dashboards and KPI is based on the Warehouse stock levels.
- Created Hierarchies, Parameters and groups in tableau.
- Developed Custom Geo charts using .shp files.

## **Tableau Developer**

### **Time Warner: ACE Audit Data Analytics WB Tableau 9.1, SQL Server2012, R Studio**

- System study and understanding the SRS.
- Extracted the tables/data from SQL Server database and non-database sources (XLS, and Text file) and generated reports by using Tableau desktop and Power BI.
- Developed different types of visualizations reports like bar charts - Bullet Graphs Boxplots and Geo Graphical Analytics by using Maps.
- Creating basic calculations including LODs, correlation Statistical calculations, custom aggregations.
- Integration of R programming with Tableau, calculated fields to incorporate the R functions in tableau.
- Developed customized statistical charts like Pareto charts and complex reports using data blending.
- Creating basic calculations including string manipulation, basic arithmetic calculations, custom aggregations, and ratios.
- Publishing the Dashboards to Tableau server/Online.

## **Education**

- Master of Technology in Mechatronics with 75% in 2011 from JNTUH University.
- Bachelor of Technology in ECE from JNTUH 2005-2009 with 66.39%
