Associate Product Developer, March 2018- March 2020

Associate Product Developer, DXC Technology

- As a mainframe developer, I analyzed, designed, and implemented in system per requirement
- Debugging and Testing of programs.
- Unit testing for new change request and preparation of test cases.
- Possess good structured programming technique.

Organization: DXC TECHNOLOGY

Project

Client Kotak
Tools/Technology SMART400/ IBM iSeries.
Role Developer and Tester
Duration March 2018- August 2018

Role and Responsibilities

- Made the policies.
- Cloning of items.
- Understand the requirement and did the analysis.
- Made the approach of the requirement.
- Preparation of Test Case document

Project 2

Client DPLI
Tools/Technology SMART400/ IBM iSeries.
Role Developer and Tester
Duration Sept 2018- March 2020

Role and Responsibilities:

- Working on BRD to analyze the requirement and made the approach of that requirement.
- Designed the new screen, Files, Table, Batch
- Debugged the Programs to check the code flow.
- Making sure code developed is passed through UAT.
- Unit Testing is also done to check code is working fine or not.

Education

Year	Examination	Institution	Percentage Obtained
2017	B. Tech (CSE)	Chandigarh Group of college, Land ran, Mohali, Punjab.	77%
2013	H.P Board	Minerva Public School, Bilaspur (H.P)	82%
2011	H.P Board	Minerva Public School, Bilaspur (H.P)	91%
