WORK EXPERIENCE

Technology Consultant

Tax Technology Transformation Deptt, Ernst & Young LLP

10/2019 - Present

Achievements/Tasks

- Entrusted with the responsibility of **managing a team of 5 developers** and **1 external vendor** for the development of **enterprise applications**. My work entails closely working with organisations to identify inefficiencies in their business processes and offer IT enabled solutions. In the course of which I am required to create bespoke IT enabled solution designs, ensuring an exceptional user experience. The team has already delivered such IT solutions for some of the **largest e-commerce operators** in the world.
- Currently working on a game-changing **data mapping solution** that shall help revolutionize the use of **Extract Transform and Load Tool** with its applicability across the sectors. Once developed, it shall be a one stop solution for conversion of data from any unstructured format into a structured form. The portal is currently in testing and integration phase. It shall offer the company a competitive advantage in the market place generating new prospective business upwards of **100 Cr**.
- Led the team that was responsible for development of a highly advanced yet user friendly **Interchange Portal** for managing banking transactions for one of the **largest payment facilitators** in the world. Our team was hugely appreciated by the client for executing the project in **record time** amidst the **COVID-19 pandemic**.
- Led the team responsible for developing a **fully automated GSTR-2A vs PR reconciliation solution** and integrated it with the **SAP accounting software**, to offer a seamless integration of data with clients source Enterprise Resource Planning software.
- Other project activities entail assisting in **User Acceptance Testing**, creating **Test Scripts** for each stakeholder in order to find and flush out any issues within the system. Finally, conducting post Go-Live activities in all areas of the system, including **1-on-1 training** with the clients.

Tax Analyst

Indirect Taxation Deptt, Ernst & Young LLP

09/2016 - 10/2019

Achievements/Tasks

- Assisted in **advisory** and **compliance** for various multinational companies for Service Tax, VAT and GST.
- Assisted in **GST implementation and transition** for clients, including its **financial implications**.
- Reviewed **financial models** of a multinational clients to determine the indirect tax exposures and suggested measures to **optimize their tax liabilities**.
- Built a **comprehensive tax rate master** for one of the largest e-commerce operators. This project earned wide accolades and praises from the client.
- Being a science student and having intermediate knowledge of coding, I started developing keen interest in technology transformation projects within Indirect Tax department. Some of these projects included offering ad hoc technology solutions to various clients with the help of tools such as **Ms-Access, Macros, excel based GST reconciliation** to name a few. This helped me build my experience in technology from the ground up
- Other DigiTech projects involved ideation and conceptualisation of interactive **Business Intelligence dashboards** for all the DigiGST clients (EY India's proprietary GST compliance software) by combining my knowledge of taxation and data analytics.
- Conceptualized and built automated **GSTR-7 & 8 return filing tools** for e-commerce clients.
- All this eventually led to the my smooth transition into the **Tax Technology Transformation department** within EY.
