

ANANYA MISHRA

Senior System Engineer (Infosys LTD)

In pursuit of a challenging job position in a future-oriented I.T firm where I can apply my forte of logical and analytical thought process with creative problem solving to achieve personal and organizational growth. My area of expertise in this span of 2 years is front end development but I am always keen and up for learning new technologies. I am a fast learner and a great team player who believes that what individuals can't achieve on their own, teams can!
