EXPERIENCE

Software Developer (Salesforce)

iBusiness Software

📅 08/2019 - Ongoing   📍 Bangalore,KA

iBusiness Software is dedicated to enhancing productivity by optimizing vital business functions. More than that, our ability to conceptualize, architect and implement new and expanded capabilities allows us to transform legacy models and steadily promote business growth.

- Worked on Sales, Service ,Community cloud.
- Worked on 5+ projects including both small & big projects.
- Established community cloud into our org with team from scratch.
- Developed logic according to best practices & business flow.
- Worked closely with Manager , Product Owner & Team lead. Involved in daily standup meetings, Agile. This resulted to bring good solution to the business requirement.
- Created modern Enterprise Lightning Apps combining Lightning Design System, Lightning App Builder and Lightning Component features.
- Created multiple Lightning Components, added CSS and Design Parameters that makes the Lightning component look and feel better. Minimized code in JavaScript Controllers by adding reusable functions in Helper Component.
- Developed APEX class, Controller class and APEX Triggers for various functional needs in the application. Scheduled Apex Batch jobs for processing large records with Connect API, Chatter and quick Action.
- Experience in Administration, Configuration, Implementation, Lightning, and support experience with Salesforce platform.

Software Developer Trainee (Salesforce)

iBusiness Software

📅 02/2019 - 08/2019   📍 Bangalore ,KA

iBusiness Software is dedicated to enhancing productivity by optimizing vital business functions. More than that, our ability to conceptualize, architect and implement new and expanded capabilities allows us to transform legacy models and steadily promote business growth.
