Profile:

OCJP certified with 3+ years of Software Industry experience spanning in area of Application Development and Deployment. Have working experience of Java, Spring boot, Docker, Kafka, and Microservices. Involved in solution designing and implementation with high-level design and cutting-edge technology and tools. Enthusiast to work on Cloud-Native applications.

Work Experience:

Aikon Labs Pvt. Ltd.   *- Software Engineer*
(March 2020 – Present)

- Closely involved in designing business features and development process of organizations core apps.
- Working on Slack's OAuth2.0 implementation and block kit to design user interactive components for slack app.
- Working on Liferay Portlet 6.2 to build a B2C portal for tenant configurations.
- Working on Kafka Streaming API to centralize the event management for customer and sales team.
- Responsible for incorporating the SCM tool by maintaining release version and branching and configuring CICD pipeline to solve the existing problem of deployment
- Responsible to review the codebase to make sure that the code is clear and concise, that follows common design patterns and principles.
- Assisted in implementation of Continuous Integration Continuous Deployment (CI/CD) platform throughout multiple environments.
- Responsible to revamp the existing UI, closely worked with higher management to meet the end product as per customer needs

ProMarket Solutions LLP   *- Software Engineer*
(May 2019 – March 2020)

- Created REST API and Microservices using Spring Boot for different functionalities by considering the Authentication, Authorization, and Security layer on top of the services.
- Closely worked with Kubernetes Administrator for deploying microservices by wrapping up dockerized container into the Kubernetes Cluster.
- Extensively used the LOG4j to log regular Debug and Exception statements.
- Co-ordinated with teammates during the development, testing, and implementation of new upgraded business modules and enhancements
- Worked in the DevOps model environment following scrum- Agile practices.

- Software Engineer

Cooey Technologies Pvt. Ltd. *(July 2018 – April 2019)*

- Worked on Spring Boot and JAX-RS framework for the development of health-care services.
- Configured Prometheus and Grafana for monitoring the stats and logs.
- Responsible for deploying services on distinct environments, configuring Nginx as a web server using Microsoft Azure App Services, Microsoft Build, and Release Pipeline.
- Achieved optimized time complexity for API by incorporating Java 8 asynchronous classes wherever required.
- Closely worked in a team with the Project Manager and Solution Architect to define solutions and services.
- Participate in daily scrum meetings, and deliver features on time as a team.

Vertex Technosys *- DevOps Engineer*
(June 2017 – June 2018)

- Worked on Spring MVC, Spring Boot, Spring Security, and Swagger Tool technologies for web application development, REST API creations, and API documentation.
- Worked on REST and XML based API for developing customer management portal by integrating different Service Providers API.
- Led a team that delivered a web application, integrated with Identity and Access Management eg; Google, Facebook, Okta, ForgeRock, GitHub.
- Worked on Agile Methodologies and Scrum as a software development process.
- Experienced in application development and deployment using the CICD pipeline.
- Experienced in communicating with clients to determine specific requirements and expectations.

Technical Skills:

Core Skills	:	Java, REST Services
Frameworks	:	Spring MVC, Spring Boot, Spring Security
Web Development	:	ReactJS, JavaScript, Bootstrap, HTML5, CSS
DevOps Tools	:	Git, SonarQube, Maven3, Gradle, Docker, Jenkins, Ansible, Prometheus, Grafana, Microsoft Build and Release Pipeline
Project Management Tools	:	Jira, Confluence, Microsoft VSTS, Slack, Trello
Middleware and Web Servers	:	Apache Tomcat, Nginx, JBoss EAP

Education:

2017	:	**BTech** in Information Technology from **Rajarambapu Institute of Technology, Shivaji University** with **CGPA: 7.67**
2014	:	**Diploma** in Computer Technology from **Maharashtra State Board of Technical Education (MSBTE)** with **78.39%**

Personal Details:

Date of Birth	:	27th June 1995
Address	:	102 D 4 Bhavani Peth Solapur, Maharashtra, India – 413002
