

► RASHMI GM

Phone: +91 9591339866

E-mail: rashmigms224@gmail.com

DOB: 22/07/1995

Nationality: Indian

OBJECTIVES:

Working on Non-functional testing for web applications, good in Loadrunner scripting, Executing performance test with HP Performance center, HP controller, Loadrunner Analysis. Analysing bottlenecks if any. Server and CPU utilization using Dynatrace monitoring tool. Good at creating scenarios for Load test, Smoke test, Stress test, Soak test and Monitoring the tests using HP Controller.

EDUCATION:

- BE (Electronics and communication) from Vishveshwaraya technological university with aggregate 71.94 %. Date of completion : July / 2017.
- 12th From kumadwathi college with aggregate 74 %. Date of completion : April / 2013.
- 10th From MDMR school with aggregate 91.24 %. Date of completion : April / 2011.

TECHNOLOGY SKILLS:

- Performance Test Tools – Load runner, Vugen scripting, HTTP Watch.
- Performance Monitoring tool – Dyna Trace.
- Defect Tracking – Remedy, Service now, HP ALM, JIRA.
- Languages and Database – Basics of mainframe, C, Basics of SQL, Azure.

EXPERIENCE:

Job Title: Performance tester

Date of joining : December /2017 – Till date

Company Name: Tata Consultancy Services

EXPERIENCE SUMMARY:

- Expertise in using tools like Loadrunner, Dyna Trace and Remedy.
- Used Agile and Waterfall methodologies in projects.
- Proficient in performance testing applications hosted on Web, Mobile, Windows, Azure and Mainframes alongside knowledge on Architecture, Network and Database concepts.
- Experience in designing transaction mix, workload analysis and producing custom graphs and summary reports.
- Created LR scripts using web(HTTP/HTML), true client Protocols.
- Executed Load, Smoke, Stress and Soak tests.
- Analysed the results and produced performance test reports.
- Gained knowledge in insurance practices and methodologies.
- Followed Agile process for performance testing and tested components in each sprint and reported the issues.
- preparation and maintenance of logical scenarios, test scripts, test data creation.
- preparing performance test plan aligning to NFR, and towards delivery of Coverage Matrix, tool/protocol analysis, volumetric design, scripting, scenario design, execution, analysis, reporting.
- Designing Volumetric, scripting, scenario design, execution, analyzing and Reporting.
- Preparation of Test Closure Report and successful closure of project completing all milestones in timely manner.
- Helped in preparation and execution of the scenario. Analysis of the test results by analysing Load runner logs as well the application server and Web server Logs.
- Efficiently managed incident, change, problem records and tracking defects using the defect management strategy.
- Expertise in designing the scenarios for load, soak, smoke, stress test and customised tests for requirement and defect identification.
- Lead Performance tests in Windows, Azure, Web based and Database upgrade projects and Scalability.
- Excellent knowledge in scripting complex web, Azure, windows and Mobile based applications.

-
- Involved in analyzing various graphs for the client side and server side metrics like Transaction Response Time, Hits per second graph, Pages download per second, Throughput, Error statistic graphs, Memory & CPU utilization.
 - Established excellent relationship with Client and third parties involved across project lifecycle.
 - Attending meetings / discussions with BA's on Nonfunctional requirements gathering.
 - Used Dynatrace Performance tool to monitor the server statistics (CPU, memory utilization, JVM metrics, Failure Rates, connections pool and number of threads etc.) during Load/Stress and Volume tests.
 - Executed various performance tests (Load, Stress, Endurance and Batch Testing) for various web applications (.net, java) and mainframe and Azure applications.

RESPONSIBILITIES:

- Involved in studying/understanding the architecture of the system from the Performance testing perspective.
- Discussing with App Dev and QA Teams and collect the inputs.
- Preparing Performance Test Strategy.
- Collecting Business Scenarios from End Users perspective.
- Preparing Scripts for Scenarios.
- Analyzing and modifying the scripts by correlating and Parameterizing.
- Preparing Test Execution Plan, based on Load, Peak Load, Threshold Load.
- Executing the Scripts by generating Virtual load, using Performance Center.
- Monitor performance test Results & analyse the Performance bottlenecks.
- Analyzing Performance Results and Providing solutions to clients.

SKILLS & KEY COMPETENCIES:

- End to end performance testing expertise.
- Extensive performance engineering skills.
- Outstanding risk, analysis & reporting skills.
- Proven leadership, training and team building skills.

-
- First-class communication and presentation prowess.
 - Influential, inspiring team member and strong team player.
 - Shrewd and incisive decision-maker/problem solver.
 - Highly organised with meticulous attention to detail.
 - Self-starting, disciplined, tenacious and hardworking.
 - Calm, confident & assured in pressurised situations.
 - Natural ability to engage across all levels/cultures.
 - Professionalism, diplomacy & integrity at all time.

PERSONAL SKILLS:

- A quick learner with 'Can do' attitude.
- Trained new employees.
- Ability to achieve immediate and long-term goals and meet operational deadlines.
- Good leadership, decision making, communication, time management and interpersonal skills.
- Strong analytical and problem solving skills.

DECLARATION:

I hereby declare that the details mentioned above are correct to the best of my knowledge and belief. I bear the responsibility of any error or mistake in the data if occur in the future.
