Professional Summary

Accenture
Present

Feb 2019 -

Project 1# : Bose-Salesforce MVP Launch

Environment : Salesforce (QA, Stage & Production)

Role : Salesforce Tester

Tools : Jira, Confluence.

Description : Bose Professional audio solutions help teams collaborate more effectively, moving beyond “good enough” audio and video so interactions are more natural, and people can hear more, see more, understand more, and work better.

Communication is one of the key measurement.

Responsibilities:

- By learning new features worked on Commerce cloud.
- Worked on Marketing cloud and Interaction Studio as well.
- In short span of time understood the concepts and workflow of Commerce cloud and completed all tasks within the timeline.
- Performed End to End Testing by validating all the application flows.
- Actively participated in Test scripts preparation.
- Took whole responsibilities on Analytics execution and completed successfully.
- To meet the deadline worked on weekends and did UAT Support.
- Gain knowledge on Service cloud by validating orders.
- Successfully completed End to End testing phase without any absence to work.

Project 2# : Boston Scientific

Environment : Salesforce (QA, Stage & Production)

Role : Salesforce Tester

Tools : Jira, Confluence, ACCELQ

Description : Boston Scientific cloud-based, data-driven digital health solution for hospitals and it is dedicated to transforming lives through innovative medical solutions that improve the health of patients around the world.

Patient Engagement is one of the key measurement.

Responsibilities:

- Active Participant in Sprint Planning, Sprint Review & Sprint Retrospective Meetings.
- Performed detailed test case design and executed tests.
- Communicated with clients and stakeholders to test for client requirements correctly.
- Analysed results and documented findings for presentation at project team meetings.
- Worked on Standard and Custom Objects/fields, Page layouts, Record types, Validations, Lead Conversion testing.
- Worked on Profiles and test Users.

Project 3# : Telia-Rodod B2B

Environment : QA, Stage.

Role : Functional Tester

Tools : ALM, Jira, Confluence, Siebel CRM

Description : Telia Company AB is a provider of mobile and broadband; and fixed services, including telephony, data, and TV services.

Responsibilities:

- Testing of mobile & fixed broadband using Siebel CRM, OSM and UIM applications, analyzing user stories and generating complex test scenarios, test execution and defect logging using JIRA and tracking them to closure.
- Additionally performed End-to-End testing.
- Quality work delivered in multiple releases with minimal defect leakage to Production, which was appreciated and praised by clients and leadership.
