➢ Working as **QA Analyst** in **Infor India Private Limited.,** Hyderabad – from June 2018 to till date.

PROJECT EXPERIENCE:

Project #1

Project Name	Infor Ming.le – IFS (Infor Federation services)
Role	QA Analyst
Environment	Cloud and On-Prem
Database	SQL

Description:
Infor Ming.le is a comprehensive platform for social collaboration, business process improvement, and contextual analytics. Giving you the most innovative social media concepts translated into a business environment, the solution marries communications with business processes to help you work smarter and faster. Unlike information sharing technologies that are disconnected from your core applications, Infor Ming.le is fully embedded with organizational systems like ERP and financials. All employees, regardless of their roles, can communicate, collaborate, and share information, such as documents, plans, photos, and videos, from a centralized location, with all activity captured and easily searchable.

Responsibilities:
➢ Analyzing and Reviewing user reports.
➢ Addressed and captured business requirements.
➢ Prepared Solution Required Document.
➢ Report Requirement taken from BA and mapped them to the functional aspects. ➢ Interaction with BA, Project Managers and Developers for requirement clarifications. ➢ Preparing Test Scenarios, Test cases, Test Data, Issue documents, Test Summary documents. ➢ Performing Functional testing, Exploratory testing, Database testing, Smoke testing, Sanity testing, GUI testing,

Ad hoc testing and Retesting.
➢ Reviewing and Posting of defects in Bug Tracking Tool and tracking the life cycle of the bug until its closure.
➢ Executing developed Automation scripts and Analyzing the report generated and tracking the failures in Bugs.

Declaration:

I, hereby declare that all the details furnished above are true to the best of my knowledge & belief
