SKILLS

Angular

Javascript

Node.JS

Express

MS SQL Server

ASP.NET

C#

Web.API

WORK EXPERIENCE

Lead Consultant Infosys

10/2022 - Present

Pune, India

Achievements:

- Designed and developed .NET applications using C#, ASP.NET, and MVC architecture.
- Built Angular front-end interfaces that were intuitive and user-friendly.
- Worked closely with clients to gather requirements and incorporate their feedback into the development process.
- Collaborated with cross-functional teams, including designers and QA engineers, to ensure the delivery of high-quality products.
- Mentored junior developers and provided guidance on best practices in .NET and Angular development.
- Troubleshoot and resolved technical issues in .NET and Angular applications to ensure their smooth functioning.

Senior Application Specialist Saudi Industrial Development Fund

07/2015 - 10/2022

Riyadh, KSA

Achievements:

- Successfully developed and launched multiple .NET and Angular applications that have received positive feedback from clients and end-users.
- Implemented innovative solutions that increased the performance and efficiency of .NET applications by 60%.
- Contributed to the development of an Angular application that received an award for its user-friendly interface and seamless functionality.
- Mentored junior developers and helped them enhance their skills in .NET and Angular development.
- Successfully migrated multiple legacy applications to .NET and Angular, resulting in improved performance, stability, and scalability.
- Led the development of an eLoans platform that streamlined the loan lifecycle for end-users and internal departments, improving efficiency and reducing manual errors.
- Contributed to the digital transformation of the organization by delivering modern, scalable, and reliable solutions that met the needs of stakeholders.
- Provided ongoing support and maintenance for the platform, ensuring its reliability and stability.

WORK EXPERIENCE

Lead Senior Software Engineer

Ingram Micro

2014 - 2015

Mumbai, India

Achievements/Tasks

- Successfully led the migration of a legacy system to .NET and Kentico CMS, resulting in improved performance, increased efficiency, and reduced maintenance costs for the client.
- Worked with cross-functional teams, including business analysts and project managers, to understand the requirements and scope of the migration project.
- Developed a comprehensive migration plan that involved data transfer, code conversion, and testing to ensure a seamless transition.
- Utilized best practices in .NET and Kentico CMS development to create a robust and scalable solution that met the client's needs.

Lead Consultant

JP Morgan

2014 - 2014

Mumbai, India

Achievements/Tasks

- Contributed to the development of critical business applications for JP Morgan, utilizing .NET, JQuery, ASP.NET, OpenText eForms, and BPM engine.
- Worked closely with stakeholders and business analysts to understand the requirements and design solutions that met their needs.
- Implemented JQuery and ASP.NET to create dynamic user interfaces that were intuitive and user-friendly.
- Utilized the BPM engine to automate business processes and improve workflow efficiency.
- Developed custom solutions for OpenText eForms to streamline document management and improve the user experience.
- Provided ongoing support and maintenance for the applications, ensuring their reliability and stability.

Lead Consultant

Collabera

2013 - 2014

Mumbai, India

Achievements/Tasks

- Contributed to the development of a project used by JP Morgan financial advisors to generate quotations and reports, utilizing .NET, Windows Services, Scheduled Jobs (CRON), and other technologies.
- Worked closely with business analysts and stakeholders to understand their requirements and design solutions that met their needs.
- Developed Windows Services and Scheduled Jobs (CRON) to automate the generation of reports and ensure that data was up-to-date and accurate.
- Implemented .NET to create a user-friendly interface that made it easy for financial advisors to access the information they needed.
- Conducted comprehensive testing and debugging to ensure that the project was reliable and delivered the desired results.
- Provided ongoing support and maintenance for the project, ensuring its stability and ensuring that it continued to meet the needs of the financial advisors.

Senior System Analyst

Ducont - National Commercial Bank

2012 - 2013

Jeddah, KSA

Achievements/Tasks

- Contributed to the development of a VB.NET desktop application used by bank branches to handle transactions and issue customer requests for Debit Card issuance.
- Worked closely with stakeholders and business analysts to understand the requirements and design solutions that met their needs.
- Implemented VB.NET to create a desktop application that was fast, reliable, and user-friendly.
- Conducted comprehensive testing and debugging to ensure that the application was stable and delivered the desired results.
- Provided ongoing support and maintenance for the application, ensuring its reliability and stability.
- Collaborated with team members to improve the user experience and add new features as required.

WORK EXPERIENCE

IT Analyst

Tata Consultancy Services

2010 - 2012

Achievements/Tasks

- Contributed to the delivery of an online platform for Asset Management for a Bank of America client.
- Worked closely with stakeholders and business analysts to understand the requirements and design solutions that met their needs.
- Utilized cutting-edge technologies to create a platform that was fast, reliable, and user-friendly.
- Developed and maintained web applications using a combination of JavaScript, JQuery, ASP.NET, and MVC, resulting in highly scalable and user-friendly solutions.

Mumbai, India
