**Project # 02 :- Brennovation**

**Client :- Bren Corporation Ltd**

**Location :- Bangalore**

**Duration :- January 2019 to April 2020**

**Role:** SFDC analyst for fixing incidents and working on Development Changes.

**Summary:** Bren is not just about creating homes, workspaces and retail spaces. It is a way of thinking, and creating, always.

Our approach, Brennovation, drives our philosophy of development, as we continually innovate to enhance customer experience and quality standards. With expertise in development that stretches back three decades, in just four years we have built homes for over 9000 residents, delivering more than 3 million sq.ft. Whether it's architectural design, construction or finding the best properties, at the heart of our approach is the customer, understanding the needs of people and putting them first in whatever we do.

**Responsibilities:**

- Creating, Managing and Customizing custom objects and page layouts.
- Worked on Profiles, Users, Field Accessibility, User Permissions, Layout Assignments, Field Mappings.
- Designed and deployed the Custom objects, Custom tabs, Validation rules& Formula Fields, Workflow rules, Lightning Apps and Connected Apps, Visualforce pages to suit the needs of the application.
- Worked on Process Builder, Triggers and Test Methods.
- Created Customer Community portals and Various internal permissions for all administration works.

- Developed Sites for their Customer data storage it helped in bridging between them.
- Worked on REST API Integration(Callout Class, MockTest Class, Test Class) and Scheduling them.

**Environment:** Salesforce Sandboxes (DEV, UAT, Prod), Salesforce Dataloader, force.com IDE.

**Project # 01:- Florists Site**

**Client** :- Florida Florists Ltd

**Location** :- California

**Duration** :- February 2019 to January 2020

**Role:** SFDC analyst for fixing incidents and working on Development Changes. (Offshore)

**Summary:** FFL's Inventory Managers have been using the Force.com platform to manage the inventory of the flowers they use in Bouquets that they sell. Sales are up and its expert Florists cannot keep up with both the design and assembly of bouquets. To improve efficiency, FFL would like to have its florists design bouquets electronically on the Force.com platform and then have less skilled labor assemble them.

A Salesforce Certified Platform App Builder has already built their data and security model. Now, FFL needs a Salesforce Certified Advanced Developer or a Salesforce Certified Platform Developer II to build some automated update logic and a custom user interface.

**Responsibilities:**

- Creating, Managing and Customizing custom objects and page layouts.
- Worked on Profiles, Users, Field Accessibility, User Permissions, Layout Assignments, Field Mappings.
- Involved in creating Duplicate Rules and Matching Rules and Email Templates.
- Designed and deployed the Custom objects, Custom tabs, Validation rules, Workflow rules and Formula Fields, Page layouts, Lightning Apps and Connected Apps, Visualforce pages to suit the needs of the application.
- Worked on Process Builder, Apex Triggers and Apex Classes for custom logic.
- Responsible for Loading data into salesforce.com using Apex Data Loader.

**Environment:** Salesforce Sandboxes (DEV, SIT, UAT, Prod), Salesforce Dataloader, force.com IDE.

**Personal Skills and Extra Circular Activities:**

- Participated in District Level Volley Ball Sport as Lifter cum Saver.
- Participated in District Level Cricket Sport as WicketKeeper-Batsman.
- Performed Dance in Various Dance Programs throughout my academics.

**Declaration:**

I hereby declare that all the above mentioned information provided by me is true to the best of my knowledge.

**Date :**

**Place:** Bengaluru / Hyderabad
