PROJECTS

Flappy Birds — *Python*

- I recreated the famous flappy birds game for Windows.

- The images were blitted to show the bird was moving.

- I used Pygame and Pyaudio Modules for this project.

- I used photoshop to edit game images.

Virtual Assistant — *Python*

- I have been working on a virtual assistant application.

- It is used to perform small tasks on our pc.

- It takes input from the user as a speech command.

- It performs the given task and returns the output to the user.

Burger Joint— *Java*

- Created a User interface for a virtual burger Joint using XML.

- The customer can enter the order with a single click.

- The cost of the order is calculated in the background.

- The user will get a digitally printed bill after order.
