	Application Development Analyst	June 2019 – May 2021
	Application Development Associate	September 2017 – May 2019

Work Experience:

- **Sr. Salesforce Developer**
  Deloitte USI ▦ **Oct-2022 to March-2023**

  The project is related to healthcare platform which is built on the salesforce. It provides services to child care support in Connecticut state of US. I have created Lightning web components and extensively used Lightning flows to build the entire application. It had multiple integrations in place with third-party systems, also using Customer Community license. I was part of deployment, planning and execution of the project.

- **Sr. Salesforce Developer/Salesforce Developer**
  Accenture ▦ **Sept-2017 to Sept-2022**

The project is on healthcare platform which is built on the salesforce. It provides services to pharmaceuticals companies, HCPs and Patient in US. I was Involved in the Client specific customization for the new Clients opting for the platform. I have worked on developing Communities using Customer Community Plus license, Lightning Aura Components, APEX, Community branding and enhancements as per the client requirements.

Responsibilities:

- Implemented and delivered projects under Agile Development Environment and Test-Driven Environments with large and small Team Projects.
- Analyzed client business requirements and preparing technical design solution.
- Designed and developed different **Automation tools** to reduce manual efforts in Project work.
- Expertise in advanced APEX/Lightning development, including high volume data processing, community portals, SSO and metadata API.
- Mentored many resources in Salesforce Development.
- Created **Aura based Components, Attributes, Controllers which can be compatible to access through Lightning App builder and Experience builder**.
- Work with release engineers to understand impacts of branches and code merges.
- Created few **lightning web components** based on client requirements.
