VNET :

Dear Sir/Madam,
Kindly find enclosed my resume to provide you with an overview of my relevant experience and trainings / Certifications in various Domains.
I have nearly 14+ years of IT experience.

Yours Sincerely,
Akash Ghormade

SUMMARY

- Over **14 years** of extensive IT experience as **Oracle APPS DBA (11.5.9, 11.5.10, R12.1 R12.2)** on various AIX, Solaris (5.9-5.10),Linux RHEL(4,5,6,7,8), Unix and Windows platforms, administrating and troubleshooting Oracle Technologies as **Oracle DBA (9i.x, 10g.x, 11g.x, 12c.x, 19c.x)** in Production Test/Development environment.

- **Oracle Cloud** - Design complex and innovative technical solutions leveraging Oracle Cloud offerings to address critical business requirements. Identify common pain points in Oracle products and Solutions, and propose alternatives to improve them.

- Well versed with the concepts and practice of all aspects of **Oracle Database Administration** for **Oracle 8i, 9i, 10g, 11g, 12c,19c** installation, upgrades, backup, recovery, user privileges, security etc. Have strong in depth Oracle database maintenance including DB migration, ASM, RMAN and OEM. **Cross-platform migrations.**

- Expertise in **Oracle Fusion Middleware Applications** Oracle Repository Creation Utility (RCU) / OBIEE / Oracle WebCenter / Oracle Access Manager (OAM)/ Oracle SOA / Oracle ADF / Oracle Transportation management (OTM), Identity and Access Management (IAM)

- Expertise in Oracle Application troubleshooting, **Performance tuning**, Installation, Patching, Cloning, Maintenance, Migration, Upgrade, Concurrent Manager, Maintenance Pack application, JDK, Jinitiator, Java Web Start, Application tuning, System Administration, Form Server, JVM Tuning.

- Dedicated APPS DBA experience in handling routine and ad-hoc activities of 10 Production, 10 Staging, 20 Development and 10 Testing instance ensuring committed uptime to the clients in adherence to the SLAs, smooth delivery of the instance after scheduled activity (Cloning, Patching, Maintenance etc.) and effectively handling the escalations**.**

- **Upgrade Projects** - Oracle Databases / EBS / SOA / OBIEE-OAS / WebCenter / WebLogic / OTM-GTM / OAM & OID / Informatica / DAC / MySql Database / SSO – OAM & OID

- **RAC 3 Node GI upgrade from 11.2.0.4 to 12.1.0.2**

- **Datacenter Migration / OCI Migration of EBS R12.2 and Oracle Database 12c and 19c**

- Have strong interpersonal skills, with the ability to interact with End-Users, Managers, Technical Personnel, etc. Self-motivated, quick learner and team player and team oriented with strong analytical and leadership qualities and work ethics. Capable to face and willing to accept new challenges to leave no stone unturned.

TECHNICAL SKILLS

HARDWARE	IBM, DELL, HP, Sun Ultra Sparc
Operating systems	Linux, AIX, Solaris, Windows NT/2000,Unix
Languages	Sql, pl/Sql, Unix shell Programming, C, C++, Perl
Databases	Oracle 9i, 10g, 11g, 12C (12.1 and 12.2), 19c
Application	11.5.9, 11.5.10, 11.5.10.2, R12 (12.1 and 12.2) , 10G AS , OHS , Oracle WebLogic Server 10.3.4, 10.3.6 , 12.1.3, 12.2
Configurations	- Installation of Oracle Database 9i, 10g, 11g, 12c, 19c on various platforms - Installation of Oracle 11i, R12 on AIX, SUN, Linux - Implementation of Physical Standby database & Active Data Guard - SSL Implementation - Hardware and Software Load Balancer Implementation - MWA Configuration, Loftware Installation - Discoverer Setup - E-Business Suite Apache Virtual Host Section Configuration to succeed landing of 2 different URLs on different home pages with single Apache Web Server i.e. -- Oracle Applications EBS and iStore URL - Configuration of Oracle Recovery Manager (RMAN) - Shared APPL_TOP Implementation - OAM - OID setup for SSO logins - Installed 12c Databases with Grid - ASM configuration - Configure Reports builder / Forms builder and Workflow Builder
Upgrades	- Application Upgrade (11.5.10.2 to 12.1.3.12.2.4) - DB Upgrade (11.2.0.4 to 12.1.0.2,19c) - RAC 3 Node Upgrade - Portal 10g AS Upgrade to Webcenter (11.1.1.8.0) – Weblogic (10.3.4.0) - OID - OAM Upgrade to 12.2.1.4 - SOA Upgrade (11g to 12C) - OTM Upgrade 6.4.3 to 6.5.2 - OBIEE / OBIA and OAS upgrades
Tools & Utilities	Loftware, Kintana, PVCS, ODP, RMAN, TOAD, Discoverer, tkproof , Web-CRM , ASM,ADOP
Datacenter Migration	Migration of EBS instances / Discoverer / RMAN Setup / OID data Migration / SSL implementation

Certifications/Trainings undergone:

- Oracle Cloud Infrastructure Fondations Associate
- **Oracle Cloud Infrastructure Architect Associate**
- **Oracle Cloud Infrastructure 2020 Cloud Operations Associate**
- R12 training (Installation, AD Utilities, Patch Application and Autoconfig) from **"Oracle University" (2014)**
- **Oracle RAC** training from **"Oracle University" (2010)**
- Oracle E-Business Suite (11i) and Database including "Standby Database Management" from Evosys India Pvt. Ltd. Ahmadabad (2008)

EMPLOYMENT HISTORY

Dates	Organization	Role
06-08-2014 - till date	Cognizant Technology Solutions Corporations	Oracle DBA, Oracle Apps DBA , FMW Admin , OTM Admin and Middleware Admin
22-03-2010 to 05-08-2014	IBM (International Business Machines)	Shift Lead (Oracle DBA)
12-05-2008 to 19-03-2010	Emerson Electric Company	Team Member (Oracle Apps DBA)

EDUCATION

Degree	College/University
B.E. (Bachelor Of Engineering)	Amravati University

EXPERIENCE SUMMARY

PROJECT PROFILE

Project 1	Cognizant (NASDAQ: CTSH).
Customer	CNO Financial Group
Description	Oracle DBA / Fusion Middleware Admin
Role	Team member
Solution Environment	**Oracle Applications Version:** R12.2.4 **Database Version:** 19.20 **RHEL 8** **Weblogic Servers:** 12.2.1.4 **Oracle IDM:** SSO for ERP and Weblogic Applications using Oracle Access Manager, Oracle Internet Directory. **Standby:** Physical and Cascaded Standby
Tools	OEM, RMAN, Oracle Access Manager, ODSM,ADOP
Highlights	Responsible for upgrading CNO SSO stack from 11g to 12c. Upgraded OAM OID to 12.2.1.4 with application of latest BP. Upgrade Oracle database from 12c to 19.20. Upgraded OEM database from 12c to 19.20.

Project 2	Cognizant (NASDAQ: CTSH).
Customer	Mazda Logistics Europe
Description	Oracle DBA / Oracle Apps DBA / Fusion Middleware Admin
Role	Onsite Lead
	Oracle Applications Version: R12.2.4 , OTM 6.4.3 , SOA , WebSphere

Solution Environment	**Database Version:** 3 Node RAC 12.1.0.2 , 12.2.0.2 & 19c **RHEL 7** **Weblogic Servers:** 12.2.1.4 **Oracle IDM:** SSO for ERP and WebLogic Applications using Oracle Access Manager, Oracle Internet Directory. **Cloud Applications:** OCI, Evolv **Data warehouse DBA:** Supporting OBIEE Databases for performance related issues. **Standby:** Physical and Cascaded Standby
Tools	UC4, OEM, RMAN, OASG, Dynatrace, Oracle Access Manager, ODSM,ADOP
Highlights	Responsible for Managing EBS Oracle applications, Oracle Transportation Management OTM application, SOA , WebSphere applications , Middleware Applications. Performed SOA and OTM application and database upgrades.

Project 3	Cognizant (NASDAQ: CTSH).
Customer	Comcast Cable Communications,Inc
Description	Oracle Apps DBA / WebLogic Admin / Fusion Datawarehouse Admin
Role	Oracle Applications DBA (Team Lead, managing team of 7 Apps DBA and responsible for offshore technical deliveries) / **Onsite coordinator for FDW project**
Solution Environment	**Oracle Applications Version :** 11i 11.5.10.2 & R12 12.1.3 **Database Version :** 3 Node RAC 12.1.0.2 **RHEL 6** **WebLogic Servers:** 11g and 12C, SOA , ADF **Oracle IDM:** SSO for ERP and WebLogic Applications using Oracle Access Manager (OAM), Oracle Internet Directory(OID). **Cloud Applications:** Application deployment support on Cloud Foundry **Data warehouse DBA:** Supporting OBIEE Databases for performance related issues. **Standby:** Physical and Cascaded Standby
Tools	RMAN, TOAD, Discoverer, tkproof , ASM , Oracle Access Manager, ODSM, Unitask
Highlights	Responsible for Managing EBS Oracle Finance and ADF / SOA Production instances. Managing **AppZen and Sabrix integration with Finsys application**.

Managing SSO integration of ERP and business applications deployed on WebLogic. **Implemented Incorta Application to replace OBIA Financial Data Warehousing (FDW).**

Project 4	IBM
Customer	Vodafone Essar Ltd.
Description	CRM Application DBA - Shift Lead
Role	Oracle Applications DBA (Team Members 12)
Solution Environment	Oracle Applications Version : 11i 11.5.10.2 & R12 12.1.3 Database Version : 10.2.0.4 & 11g 11.2.0.3 AIX 6.1
Tools	RMAN, TOAD, Discoverer, tkproof , Web-CRM , ASM , Oracle Access Manager, ODSM
Highlights	Responsible for Managing 7 CRM (EBIS 11.5.10.2) / 1 Oracle Finance (11.5.10.2)/ 1 OLM (12.1.3)/ 1 OES / 1 Oracle portal (WebLogic WebCenter 11g) Production instances with the team of 12 Apps DBAs.

Project 5	IBM
Customer	Vodafone Essar Ltd.
Description	Datacenter Migration from NDC1 to NDC2
Role	Primary point of contact for DC Migration
	Oracle Applications Version : 11i 11.5.10.2 & R12 12.1.3

Solution Environment	Database Version : 10.2.0.4 & 11g 11.2.0.3 WebLogic Version : 10.3.4 and 10.3.6 AIX 6.1
Tools	RMAN, TOAD, Discoverer, tkproof, Web-CRM , ASM , Oracle Access Manager, ODSM, bulkload,l dapaddm
Highlights	➢ Database Migration from Non – ASM to ASM DB. ➢ Implemented OATM for Oracle Financial instance. ➢ Installation of 11g databases with grid. ➢ Migrated 3 CRM instances from NDC1 datacenter in Pune to NDC2 datacenter in Mumbai with minimum downtime. Implemented hardware load balancer for all of the CRMs. All CRM databases are having average size of 18TB. ➢ Migrated OID data, Users and Groups using bulkload and ldapaddm

Project 6	IBM
Customer	Vodafone Essar Ltd.
Description	WebLogic Admin
Role	Primary support for MyVodafone Portal
Solution Environment	Database Version: 10.2.0.4 & 11g 11.2.0.3 WebLogic Version : 10.3.4 and 10.3.6 WebCenter Version : 11g Oracle Access Manager : 11g Oracle Internet Directory : 11g AIX 6.1
Tools	ASM, LDAP , SSO
Highlights	➢ Daily health check and monitoring of 10G AS Application server. ➢ Perform schedule maintenance / CR movements as and when required. ➢ Monitoring Web-Cache for performance and session management. ➢ Deployment of EAR (Enterprise Application Archive) and testing the Application for new changes. ➢ Experience in Cluster Management, setting up Node Managers, Admin Servers.

	➢ Proficient in performance tuning and solving problems using thread dump and heap dump analysis. ➢ Experience in setting up database connectivity to application servers. ➢ Automation of admin tasks with Shell Scripting, Ant Scripting and Java. ➢ Configuring LDAP on the Application Server for user authentication. ➢ Deploying applications to Staging and Production environments and troubleshooting issues in the process. ➢ Extensive experience in troubleshooting memory management issues on application servers. ➢ Install WebLogic 11.x Servers on AIX environnements. ➢ Configuring WebLogic Servers for optimal performance. ➢ Worked on Web server and WebLogic consoles for non-critical fixes. ➢ Troubleshooting for different kinds of failures in WebLogic Servers, immediate fixture of the issue and performing root cause analysis on many of them. ➢ Developed Cron tab jobs for WebLogic log file archiving. ➢ Worked extensively creating clusters, managed servers, JMS queues, bridges & JDBC connections pools, managing JNDI, managing security, configuring and monitoring JMS in BEA Web Logic server. ➢ Managing Oracle HTTP servers.

Project 7	Emerson Network Power
Customer	Emerson
Description	DBA support for Oracle Apps production instance
Role	Oracle Applications DBA (Team Member , 20)
Solution Environment	Oracle Applications Version: 11i 11.5.10.2 & R12 12.1.3 Database Version: 10.2.0.4 & 11g 11.2.0.3 Weblogic Version : 10.3.4 and 10.3.6 Sun Solaris
Tools	Loftware, Kintana, PVCS, ODP, RMAN, TOAD, Discoverer, tkproof , Web-CRM , ASM

Project 8	Emerson Process Management
Customer	Emerson
Description	DBA support for Oracle Apps production instance
Role	Oracle Applications DBA (Team Member , 40)
Solution Environment	Oracle Applications Version: 11i 11.5.10.2 & R12 12.1.3 Database Version: 10.2.0.4 & 11g 11.2.0.3 WebLogic Version : 10.3.4 and 10.3.6 Sun Solaris
Tools	Loftware, Kintana, PVCS, ODP, RMAN, TOAD, Discoverer, tkproof , Web-CRM , ASM
Highlights	➢ As part of DBA team, responsible for remote administration, maintenance and troubleshooting Oracle Apps production servers and development servers. ➢ Provide 24X7, On Call support to internal and external customer. ➢ Followed a full proof Ticketing System where tickets were generated for outstanding issues, working on tickets includes, informing the client about its status and resolving the issue at the earliest, formal closure of the ticket generated. ➢ Expertise in Installation of Oracle Applications R11i (Single Node / Multi Nodes). ➢ Cloning Oracle application production instances using Rapid clone and Adclone Utility. ➢ Applying patches using adpatch utility. ➢ Creating new user account, assigning roles and responsibility using system administration. ➢ Day to day support activities on oracle application instances as well Oracle databases that running for other applications. ➢ Creating Responsibilities, Menus, Users, and Printers and maintaining User Security. ➢ Responsible for monitoring the scheduled jobs ➢ Regular maintenance of database health, database growth, space management etc. ➢ Backup & recovery management (Both Physical & Logical). ➢ Performance Monitoring and Tuning. ➢ Concurrent Manager troubleshooting including "Output Post Processor".

Project 9	Emerson Climate Technologies
Customer	Emerson
Description	Datacenter Migration from Chicago Datacenter to St. Louis Datacenter
Role(Role Level)	Oracle Applications DBA (Team Member ,10)
Solution Environment	Oracle Applications Version: 11i 11.5.10.2 & R12 12.1.3 Database Version: 10.2.0.4 & 11g 11.2.0.3 Weblogic Version : 10.3.4 and 10.3.6 Sun Solaris
Tools	Loftware, Kintana, PVCS, ODP, RMAN, TOAD, Discoverer, tkproof , Web-CRM , ASM
Highlights	1) Responsible for Production move from Chicago datacenter to new Global Data Centre in St. Louis. 2) Responsible for Stage/Dev move from St. Louis to MTWN Datacenter. 3) Configured various Add-ons tools for Production and Stage environment in new GDC. • Add-ons include Disco 10g, Loftware, Demantra Application. 4) Responsible for configuring Bolton services required for production move RMAN/MWA. 5) SSL / Load-Balancer / HA configuration.
