CBSE Board
Marks Obtained - 82%

10th Board

Carmel School, BTPS

2010 - 2011
ICSE Board
Marks Obtained - 83%

PROFILE

I am a Passionate Programmer and "love to code" and believe in learning and growing. I have more than 5 years of experience working on web technologies such as React.js, JavaScript, Redux, HTML5, & CSS3, and can easily learn a new one.

WORK EXPERIENCE

TCS - Lloyds Banking Group (LBG)

System Engineer - Frontend Developer   July 2018 - July 2020

- Built the UI from scratch for legacy systems built on vanilla JavaScript which was being converted to react based app to improve performance.
- Developed reusable modules and error-handling modules in React.
- Built Responsive and Optimised components from prototype and wireframes provided.

- **Tech Stack Covered - HTML, CSS, JavaScript, React JS**

TCS - Bank Of America (BOA)

System Engineer - Frontend Developer   Aug 2020 - May 2021

- Developed the UI for the user dashboard for Mortgage and Loan handling of customers from scratch using React Hooks.
- Improved web accessibility using plain HTML and CSS.
- Solved different UI problems to make the app more robust and stable.

- **Tech Stack Used - HTML, CSS, JavaScript, React Hooks, Redux**

IBM - Mercedes Benzs (MBRDI)

Senior System Engineer - Application Developer   May 2021 - Current

- Developed the UI for a Reports-based application where the user can have 2 roles, Admin or Consumer. The Admin user can perform CRUD operations on the report objects but the consumer can only read the reports.
- Contributed towards improving the performance of the App by 80% using React.
- Handled state management in a centralized way using Redux.

- **Tech Stack Used - HTML, CSS, JavaScript, Typescript, React Hooks, Redux toolkit**

ACHIEVEMENTS

- Certifications – JavaScript/ES6 certification course from Udemy.
- Appreciation – Received several client appreciations, such as Cash Bonuses,Gift Vouchers, gems, and on-the-spot awards.
