

# AKSHAY BABAR

FULL STACK PYTHON / DJANGO / JAVASCRIPT REMOTE DEVELOPER

Email id: akshaybabar647@gmail.com

## ABOUT ME

I am Full Stack Python & Django developer having 6+ years of experience, motivated to combine the art of design with the art of programming. Expert knowledge of Python frameworks including Django and Flask.

## GENERAL INTERESTS

I am a versatile software developer with 6+ years of both Front-end and Back-end experience, whatever technology was given to me I have done it. I am a hard worker with fast learning capability. I am a team player; I have started my career as a trainee lowest label in the team, now I am a senior engineer, so I have experience of how to deal in team work as a team player. I worked for companies of different sizes. I love working with new technologies with startup.

## CORE TECHNICAL SKILLS

- Sound knowledge of Object Oriented software development: Python, Django
- Proficient in using scripting and programming languages: React.js, JavaScript, JQuery, XML, Ajax, CSS, HTML
- Expert knowledge of Python frameworks including Django and Flask.
- Immense potential to deploy Amazon web services: EC2 cloud computing, ELB, S3 storage
- Highly talented in managing RDBMS and NoSQL databases: MySQL, MongoDB
- Cognitively skilled to utilise research and analytics engine: ElasticSearch

## EDUCATION BACKGROUND

Daw University Indore  
Master in Computer Applications

MainStay | Contract Developer

<https://mascot.admithub.com>, <https://mainstay.com>

Skills: Python, Node, TypeScript(ReactJS) , Django, Express.js, MongoDB(mongoengine), Postgresql, Elasticsearch, Twilio, Redis, AWS(SQS, SNS)

- Maintain code quality. Code should be formatted.
- All implemented feature Or bug should be implemented behind the feature flag:- means once we enable it then it show the current. implemented behavior and if we disable it then it show it's old behaviour.
- Define what type of Parameter function is accepting and what type of Response is returning, strictly. otherwise test cases is not pass and they don't approve PR. For each feature write TestCases which we implement.

Grep Ruby Webtech Private Limited | Python/Django and JavaScript developer || Jan 2019 to Dec 2020

- Python, Django, Flask, Ajax, JavaScript, JQuery, Heroku, Linux, Git, Capistrano, AWS, Rspec, cucumber, selenium, Bootstrap, Postgres/MongoDB/Redis, Nginx, Elasticsearch, Web services/Rest Apis, Stripe/Paypal, Twilio etc.
- Responsible for gathering requirements, system analysis, design, development, testing and deployment.
