TCP-SP7

TIBCO Spotfire forAnalyst Certification

Projects

Project #1: Alberta Investment Management Corporation, Canada (Dec 2014- Jul 2015)

Environment : Windows
Role : TIBCO Spotfire Developer
Tools Used : TIBCO Spotfire Analyst, TIBCO Spotfire Server, Web player

Description:-

For AIMCo, worked on Client Relationship Management project which involves Spotfire reports of Local Authority Pension Plan for quarterly pool reports. These reports are then reviewed by Analyst for further approval.

Responsibilities :

- Offshore Project engagement in Pune.
- Design, develop and deploy the dashboard.
- SQL schema creation, Created procedures
- Business meeting with customer for dashboard reviews
- Publish dashboard over Web
- Ongoing Maintenance

Project #2: Nielsen

Environment : Windows
Role : TIBCO Spotfire Developer
Tools Used : TIBCO Spotfire Analyst, TIBCO Spotfire Server, Web player

1. Nielsen Data Exchange (Nielsen WatchBuilder) (July 2015 to May 2016)

This project basically involves seamless, standardized and centralized integration platform to ensure automated factory data extraction, data preparation and Watch builder dashboard generation. These reports involves ratings for Process, Indicators and Standards for various indexes like Cigarettes, Food, drug etc. over country and region.

2. Nielsen Global Store Repository (Nielsen GSR) (June 2016 to till date)

This project is basically builds the centralized repository for all the stores in Nielsen Considered for Surveys which will be used by different modules in Nielsen like Back office, PSRO teams. This projects involves complex integration with different factories of Nielsen from where data will be coming like NDX, SODA, and RIPPLE etc.

3. Nielsen Digital Collection Tool (Nielsen DCT) (July 2016 to till date)

This project is basically a survey authoring and collection tool. Different surveys will be authored with set of questions to be considered in a survey based on country And collection of those questions with be done with DCT mobile app.

4. Nielsen CPS Household Repository (June 2016 to December 2016)

CPS Household repository is designed for Nielsen Field Auditors to maintain the Households data electronically rather than manual sheets. This application is again a repository with Households and member details. It basically contains household's details like household name, address, field area, field auditor of field area, HH status and its usability etc.

5. Nielsen Panel Experience (Jan 2017 to Nov 2017)

Panel Experience Agile Project is exclusively designed for Nielsen panellists where they can take surveys, view reward points and connect socially with ongoing updates and also with other panellists. It is designed with many security features and anti-fraud rules.

Responsibilities:

- Gathered Business requirements and designed technical requirements documentation.
- Created various complexes **Cross tables, Bar Charts, Line Charts and Tree map.**
- Created Data sources for Report creation.
- Customized data by adding **Property Controls, Filters, Calculations, Summaries and Functions.**
- Created Personalised/Parameterised Information Links By using Information Designer to pull the data from Oracle, MSSQL, PostgreSQL, MySQL, MongoDB Database required to create the reports.
- Used **Automation Job Service Builder** to Export DXP file during Migration Process.
- Developed reports using Spotfire Professional and published the same to Spotfire Server for Business Users use.
- Expertise and Experience in Writing SQL Queries.
- Created various prototypes and showed them to the users.
- Created **Action Controls using Python Scripting.**

- Experience in enhancing the visualizations using Custom expressions.
- Experience in creating **Bookmarks**.
- Experience in Handling Multiple data tables in Analysis.
- Converted Various **Excel and BO Reports** to Spotfire.
- Conducting Unit testing of the reports developed in Spotfire Professional.
- Responsible for the migrating the reports from Development to Acceptance / Production Server.
- Worked on developing training program, user guide for **Spotfire Professional and Spotfire web player** in terms of best developing & design practices.
