## TECHNICAL SKILLS

**Proficient:** JavaScript, React, Redux, Node.js, Express, Git, Faker.js, Phaser.js

**Knowledgeable:** PostgreSQL, Sequelize, Socket.io, HTML5, CSS, Passport, OAuth, Webpack, Python, Yardi Voyager

**Some Familiarity:** Mocha, Chai, Travis CI, Heroku, Bootstrap, Pixi.js, Docker, Kubernetes, Django

## PROJECTS

**PresentBetter** | *Developer* | *WIP*

*May 2021 - Present*

*Provides feedback on your recorded presentations using facial and speech recognition*

- Set up frontend and backend infrastructure using Python and Django
- Used HTML and CSS to set up the main view of the application
- Technologies (current): Python, Django, React, Redux, HTML5, CSS

**Hair-Cutz** | *Developer* | <https://haircutz.herokuapp.com/>

*December 2020*

*2D Tower defense online multiplayer game that requires time-based strategies*

- Utilized Phaser's framework and physics engine to create a responsive game based off image overlap and time
- Implemented the main UI/UX functionality of the application using Phaser and OOP concepts
- Designed scoreboard, attacker health bar, defender timer, and clock that updates with game interactions
- Leveraged Socket.io for real time actions and responses from users for seamless multiplayer gameplay
- Technologies used: Phaser.js, Express, Socket.io, Node.js, Webpack, Heroku, HTML5

**Hoppy Endings** | *Developer* | <https://hoppyendings.herokuapp.com/>

*November 2020*

*Fully functional MVP e-commerce website selling beer from breweries*

- Developed React components to display user profile and implemented edit user, product, and cart functionality
- Protected front-end and back-end API routes for users, products, and orders for database security
- Incorporated Google OAuth for authentication and Stripe for payment processing
- Used Bootstrap and CSS for the styling of edit features and responsive buttons
- Technologies used: PostgreSQL, Express, React, Redux, Node.js, Sequelize, Google OAuth, Heroku, Stripe, CSS

## PROFESSIONAL EXPERIENCE

**Castellan Real Estate Partners**

**New York, NY**

*Accounting Intern*

*Aug 2019 – June 2020*

- Analyzed 100+ bank accounts monthly and reconciled financial discrepancies to maintain integrity and compliance
- Lead bi-weekly meetings with the accounting team to discuss any issues with reconciliation

## EXTRACURRICULAR & LEADERSHIP EXPERIENCE

**JPMorgan Chase & Co.**

**New York, NY**

*Software Engineering Virtual Experience Program Participant*

*Jan 2021*

- Interfaced with stock price data feed, used JPMorgan Chase frameworks/tools, and displayed data visually for traders

## EDUCATION

**Fullstack Academy**

**New York, NY**

*Software Engineering Immersive*

*Sept 2020 – Dec 2020*

- Focused on PERN web development stack (PostgreSQL, Express, React, Node) and Computer Science Fundamentals
- Used agile methodology, daily standup, and Kanban board for quickly iterating on projects' key features
- Researched new libraries and frameworks and applied them to deploy applications

**Baruch College – Zicklin School of Business**

**New York, NY**

*Bachelor of Business Administration*

*Class of 2020*

Major: Finance    Minor: Mathematics

GPA of 3.23/4.0
