## SKILL SET

### TECHNICAL SKILLS:

**Programming Languages:** JavaScript and Typescript

**Web Technologies:** HTML5, CSS3

**Web Services:** JSON, XML

**JS Libraries:** jQuery, Bootstrap

**JS Frameworks:** Angular2

**Databases:** MySQL, Mongo DB

**Operating Systems:** Windows Family

### FUNCTIONAL SKILLS:

- Design and develop applications
- Quick and easy learner
- Team player
- Capable to manage multitasking
- Independent and intermediate developing skills
- Debugging skills

## EMPLOYMENT SUMMARY

Currently I am working at **Ash Distributions**, as a **Team member** from February **2019** to **November 2020**, where my role is **Web developer** about developing websites, Web APIs and mobile applications.

Previously I worked for Village IT Services is startup IT Company, as a **Junior developer** from **February 2017** to **January 2019**, which is located at Chilakaluripet, nearby Guntur (Andhra Pradesh) and providing services for Web and Mobile Applications Development.

## PROJECTS SUMMARY

I have involved **4** projects in my overall career and I have mentioned some of them below.

- **Retail Management**

<b>Client:</b>	ASH Distributions, US
<b>Team Size:</b>	5
<b>Technologies:</b>	Node.js, ExpressJS and Angular
<b>Databases:</b>	Mongodb and Firebase
<b>Tools:</b>	NPM and VS code
<b>Duration:</b>	In process(Still under development, Beta is available)

**Description:**

Retail management are online portals that facilitate online transactions of goods and services through means of the transfer of information and funds over the internet. In this project it involves some other modules like user management, lottery management, write offs.

**Responsibilities:**

- Analysis, Coding and Testing in postman
  - Developing web services for sending response
  - Guiding and helping team
  - Day to day code checking and commits
- 
- **Heartbeat**

<b>Client:</b>	Joker Guy
<b>Team Size:</b>	4
<b>Technologies:</b>	Node.js and ExpressJS
<b>Databases:</b>	Mongodb and Firebase
<b>Tools:</b>	NPM and VS code
<b>Duration:</b>	12+ Months(Still under development, Beta is available)

**Description:**

Heartbitz is a Web API service, which gives random questions about the subjects Mathematics, Science and English in response. There is a mobile application called Paperz, which is from the same client and is being developed at Village IT as well.

Paperz is also in beta version and both the Paperz and Heartbitz have been developing simultaneously. Paperz is the reflection of the Heartbitz API, which generates, validates and reports the progress of the students.

This combination of apps helps the students to assess themselves towards their studies. There, you can find the tutors for your children as well.

Heartbitz and Paperz are MEAN based applications. Heartbitz is node.js based application and Mongo dB is used as database. There are 10 members been involved in developing both the applications and 4 of them are working on Heartbitz.

**Responsibilities:**

- Analysis, Coding and Testing
- Developing micro services for sending response
- Guiding and helping team
- Custom modules development
- Day to day code checking and commits

- **Machaao**

<b>Client:</b>	Machaa Team
<b>Team Size:</b>	4
<b>Front End Technologies:</b>	JavaScript, Angular, jQuery, Bootstrap and MeteorJS
<b>Back End Technologies:</b>	Node.js, ExpressJS and MeteorJS
<b>Databases:</b>	Mongo dB
<b>Tools:</b>	Meteor, NPM and VS code
<b>Duration:</b>	4 months
<b>URL:</b>	cricket.machaa.com

### **Description:**

Machaa is a US based Indian team, they have their own automated chatbot (Ganglia) in Facebook messenger. Ganglia provide latest cricket scores and updates in response of user's input.

To promote Ganglia and reflect the information from that, Machaa team wanted a website and they brought their site into existence. Now Machaa is a live site and responds to URL cricket.machaa.com. Where you can find latest cricket articles and live score updates.

Machaa was developed with latest technologies like, MeteorJS and Web Sockets to keep watching the databases changes about live cricket scores and updates.

### **Responsibilities:**

- Analysis, Coding and Testing
- Developing UI as per the designs
- Focusing on new trends like, web sockets and meteor
- Day to day code checking and commits

## **PERSONAL PROFILE**
