SUMMARY:

Currently, I am working as Sap Project Manager & Solution Architect in SAP Cloud Platform Workflow, Cloud Connector, SCP Workflow Service, SAP Gateway, ABAP/S4-HANA in Capgemini Technology Services India Ltd. I have 11.06 years of experience in SAP domain and have extensively working on SAP SD, PP, MM and FI modules. Develop the concerned application with the help of SAP Cloud Platform Workflow, SAP Gateway, ABAP/S4-HANA technologies/tools and deliver the same within the specified timeline.

I am conversant with ISO 9001 quality procedures while executing projects and an excellent team player with good analytical and communication skills. I am always keen to work in a challenging environment that provides opportunity to learn key technologies, be an effective team player in developing, managing project teams and to be an asset for the organization by delivering to the best of my capabilities.

- Worked on Implementation, maintenance and support project mainly in SAP Cloud Platform Workflow, SAP Gateway, ABAP/S4-HANA and CDs View. Extensively worked for the requirements of SD, FI, TM & MM modules and excellent team player.
- I am a fast learner and zeal to learn new topics. I would like to grow along with the Organization by working hard with total dedication, integrity, sincerity and honesty.

JOB OBJECTIVES:

To become a successful professional in the field of Information Technology and to work in an innovative and competitive environment. As an individual I can learn and gather experience and take my assignments as a challenge.

CERTIFICATION:

I have achieved "SAP Certified Development Specialist - ABAP for SAP HANA 2.0" Certification through SAP SE! This was a wonderful journey and due to this, I have learned lots of new functonality about SAP S4/HANA.

DOMAIN EXPERIENCE:

Experience

Organization	Designation	Duration
Capgemini India Pvt. Ltd.	SAP Project Manager	(2010) – Till Date

RFP & POC:
- I have done POC for "GreenCaps - Sustainability use cases in SAP". Within a short time, contributed over my project work and solved a lot of technical challenges too. I have worked on the topic of Analytics Dashboard with SAP COE in areas of Sustainability in Procurement and Transportation management.
- I have worked on "SANOFI: RFP eHR replacement - Sap FIORI Portal" about OData provisioning part.
- I have worked on "Q&A RFP eRH - Capgemini" about estimate for UI and OData creation based on existing web services and provided clear and tight assumptions. Estimated for entire life cycle (design, build/ut, integration test, uat support, cutover and 1 month of post go-live support).
- I have worked on RFP "UI5 Estimation for CATS project" about estimate for UI and OData creation based on Custom KPI Dashboard Estimate and existing web services.
- Perform different RFP's effort estimation/Requirement analysis about OData provisioning part.

SAP Cloud Platform Workflow & RESTFUL-Programming:

- Implementation of Workflow in SAP Cloud Platform with back-end as S/4Hana On-premise leveraging ODATA.
- SAP Gateway, Cloud Connector and SCP Workflow Service.
- Digital Invoice Delivery (DID) Application based on ABAP RAP Model.

SAP Workflow Skills:

- Developed Purchase Requisition, Purchase Order approval, Mail Notification etc. Workflow single handedly.
- Perform the various types of Travel request approval and Expense Approval WF related issues.
- Perform Workflow for Termination detail update, Workflow for Training Request Form and complete confirmation Workflow etc.
- Perform DHLSTO order Workflow stuck in different status (means error status).
- Perform Workflow item table mixing items means locking related issue.
- Perform SAP Invoice workflows for visible overdue entries and resolve it.

SAP ODATA Skills:

- Competent in working with Gateway service builder.
- Competent in working with all the CRUD operations.
- Competent in working with association & navigation process across multiple entity sets.
- Competent in working with deep insert methodology.
- Competent in working with uploading & Downloading files in Sap Gateway.
- Competent in system alias configuration for establishing connectivity form gateway to multiple backend systems.
- Competent in configuring custom workflow in Gateway.

SAP ABAP Skills:

- Data Dictionary objects.
- ABAP/4 reports (Classical and Interactive).
- ALV reports development.
- Designing of Forms (SAP Script, SMARTFORMS).
- Data migration using BDC, User exit and ALE- IDOC's.
- Perform the SPDD and SPRO activity for up gradation project.

PROJECT NAME: SAP Global IT (Sap Implementation & Enhancement)

Organization Name : Capgemini India Pvt. Ltd.
Client   : SAP Global IT.
Role   : SAP Project Manager & Solution Architect in SCP Workflow, SAP ODATA/UI5/FIORI, ABAP/S4-HANA
Duration   : 1st Sept 2020 to till Date
Work Location   : Kolkata, India

Roles performed:
- Scope Identification, Requirement Analysis.
- Functional GAP identification.
- Technical feasibility and documentation.
- Coding of the assigned modules.
- Client interaction & Deliverables management within time & cost.
- Technical feasibility and documentation.
- Coding of the assigned modules.

Responsabilités :
- Implementation of Credit Card on SAP landscape and Fiori integration using the SAP Cloud Platform for SAP SE customer and simplified the Integration of SAP MDG system to ARIBA SLP. As a solution architect, I have come up with an innovative solution to integrate the SAP system with different non sap system, i.e. (Delego, Cyber Source and Concur) and have simplified the complex Gateway landscape by using code push down techniques to leverage the performance of the SAP S4 Hana system and implemented Fiori using cloud platform.
- Technical analysis of the live issues comes to us as service Calls and provide the technical root cause to the functional owner. For the custom applications, identify the code bug and consult with the functional owner of the issue and fix it with the expected business logic.
- As based on requirement preparing TSD, TUT, UTC, REL etc. document.

PROJECT NAME: POSTNORD (Sap Implementation)

Organization Name : Capgemini India Pvt. Ltd.
Client   : Postnord.
Role   : SAP Project Manager & Solution Architect in SAP ODATA/UI5, Workflow and ABAP/S4-HANA
Duration   : 1st May 2020 to 31st August 2020
Work Location   : Kolkata, India

Roles performed:
- UI mock-up build during design phase to show the to-be UI.
- New UI build using SAP Fiori UX (i.e. UI5 app) with AS-IS backend setup (BAPI, Functional setup etc.).
- New ODATA service build on the AS-IS BAPIs
- Fiori app hosting on the x45 server.
- Integration and system testing of the entire application.
- UAT support and bug fixing during UAT.
- Client interaction & Deliverables management within time & cost.

Responsabilités :
- The current Telephone Book App used in PostNord is based on SAP Enterprise Portal (EP). The app is currently having some trouble after the Java upgrade done on the SAP NetWeaver. For an interim solution a workaround app has been built on SAP Portal. Looking at SAP's future direction, it is recommended to rebuild the app using SAP Fiori UX. SAP Fiori UX provides latest industry grade UI components to build a robust futuristic app with responsive features which can be leveraged on different devices e.g. smartphone, tablets and desktops.
- All possible test cases are decided and shared during the design phase.
- Changes to the scope will be planned separately with required change request.

PROJECT NAME: TOTAL SEQUANA (Sap Implementation)

Organization Name : Capgemini India Pvt. Ltd.
Client   : Total Sequana.
Role   : SAP Project Manager & Solution Architect in SAP ODATA/UI5, Workflow and ABAP S4/HANA
Duration   : 27th April 2018 to 30th April 2020
Work Location   : Kolkata, India

Roles performed: **(Have travelled to France for both Requirement gathering and GO Live Activities):**

- Scope Identification, Requirement Analysis.
- Functional GAP identification.
- Technical feasibility and documentation.
- Coding of the assigned modules.
- Preparation of unit test cases.
- Integration and system testing of the entire application.
- Client interaction & Deliverables management within time & cost.

Responsabilités :
- When a supplier responds to the HSE RFI, the corresponding representative will receive an email to be informed. He will have to go on the application to see the answers and validate the getting score of the specific tab. Once the representative has approved or rejected the qualification in his criteria, an email will be sent to both technical and SRM representatives to inform them that the criteria had been filed up.
- The SRM representative has submitted the registration form, the technical representative receives a notification in which is invited to validate the interest in the supplier candidate creation for the related category / segment. At this step the possible actions are either: modify/adapt the technical scope, validates the interest in the supplier candidate creation or reject it. If the interest is validated a notification to the SRM representative is sent and the next steps (Questionnaire RFI or Risk evaluation) are trigged.
- As based on requirement preparing TSD, TUT, UTC, REL etc. document.

Project Achievement:
- I have achieved '**BRAVO Awards H1 2018 - Project Stars**' award.

PROJECT NAME: AMGEN (SAP Enhancement & Support)

Organization Name : Capgemini India Pvt. Ltd.
Client   : AMGEN.
Role   : Senior Consultant in SAP Workflow and ABAP S4/HANA
Duration   : 1st Apr 2015 to 27th Apr 2018
Work Location   : Kolkata, India

Roles performed:
- Scope Identification, Requirement Analysis.
- Functional GAP identification.
- Technical feasibility and documentation.
- Coding of the assigned modules.
- Preparation of unit test cases.
- Integration and system testing of the entire application.
- Client interaction & Deliverables management within time & cost.

Responsabilités :
- Technical analysis of the live issues comes to us as service Calls and provide the technical root cause to the functional owner.
- Co-ordinate with the functional to sort out the problem by debugging the standard/customized SAP Applications / tcode to identify the error.
- For the custom applications, identify the code bug and consult with the functional owner of the issue and fix it with the expected business logic.
